

Interior Design

Introduction

Coming to the year 2000, it was a time when the world; especially Indonesia had been free from crisis of economy. The construction center; especially property, was rapidly growing. Property constructions are cover; housing, apartment, shopping center, office and hotel. Investment got a big influence from the sector of property.

Social lifestyle has also influenced property sector as well. Furthermore, it is followed by developer's need to always update and bring up new things. The enlargement of television programs, books and magazines has also given impact to the Interior Design sectors. Lately, people have started to realize the sensitivity of design business and tendency of the current "trend" of property. Therefore, the opportunity of business in the Interior Design sector has become widely open. This opportunity has increased the needs of professional human resource.

Even though the opportunity has widely opened, there are still many problems in that sector. The main problem in this business is the internal sector competition; both national and international. Therefore, good programs are still needed to create competency and professionalism of interior designer. Based on this condition, BINUS UNIVERSITY has opened Interior Design program-Bachelor degree (S1). The vision of Interior Design program is to become the leader; both national and international. It is also supported by IT and had strong local culture as fundamental. BINUS UNIVERSITY has been ready to stand before the global competition. It also has positive value, such as the ability to succeed its interior designer in professional environment and global competition.

Interior Design's graduates of BINUS UNIVERSITY will become professional in global environment. They will be prepared professionally and scientifically. Therefore, by finishing their Bachelor program, they can step into practical works directly. Graduates will have the ability to designing hospitality and commercial design or furniture and interior design accessories. These graduates will not only have scientific and practical abilities in Interior Design sector, however they will also have spirit and entrepreneurship skill in the future.

Vision

A world class Interior Design Department, delivering international standard designers with strengths in local values, IT and green design.

Mission

The mission of Interior Design Department is to contribute to the global community through the provision of world-class education by :

1. Educating students in the fundamental skills of designing, with a focus on the latest technology, eco design and local content by providing excellent study facilities and internships that prepare students for global service industries or for continuing to an advance degree in interior design or related disciplines.
2. Preparing students who have a strong sense of ethics and local values, an entrepreneurial spirit, and are ready to take on strategic positions in service industries and make a contribution to society.
3. Recognizing and rewarding the most creative and value-adding talents.
4. Improving the quality of life of Indonesians and the International community.
5. Designing creative products and conducting professional services in interior design fields with an emphasis on the application of knowledge to society.

Program Objective

The objectives of the program are :

1. To provide students with innovative and creative design abilities, especially in eco design and local content, by using the latest technology and approaches.
2. To provide students with design abilities and knowledge, ranging from fundamental principles to applied skills and abilities.
3. To prepare students with necessary skills and knowledge of interior design that enable them to become an entrepreneur or a professional in a global environment.

Graduate Competency

At the end of the program, graduates will be able to :

1. Choose sustainable, local content sources and to estimate the interior design growth in a global market.
2. Produce furniture and products such as home accessories, as well as develop a marketing strategy to promote them.
3. Solve problems related to the practice of interior design.
4. Apply thorough design knowledge, from design concept into real projects.
5. Prepare a professional design portfolio using the latest technology.
6. Create and manage small interior design projects.
