

Information Systems

Introduction

The need for Information technology in the business industry has shifted into an environment that is more outward looking in order to compete in the free market. Information Technology is closely related to Information Systems in their joint support of the organization. They facilitate the smooth running of the whole organization and strengthen its competitiveness.

Information systems as a discipline make positive contribution to organizations, especially in information era, where the information accessed and distributed easily. Information systems helps organization in managing data as an asset, that data collected and presented by information systems could be used for problem solving and management decisions making.

The Information Systems Study Program was founded to meet the demand for skilled human resources in the field of information systems. The scope of study in the Program includes Information Systems: information systems development including information systems analysis, design and implementation (programming), management information systems, business process analysis and design, enterprise systems, database analysis and design, and information system project management.

Vision

A study program of choice that excels in providing high-level Information system education is specialized in business-IT, recognized internationally, and champions innovation. We produce graduates with international qualifications.

Mission

The mission of Information System Department is to contribute to the global community through the provision of world-class education by:

1. Nurturing students and lecturers with creative and value-adding talents in Information System by creating a suitable environment;
2. Educating students in information systems, covering knowledge and skills in analyzing, designing and implementing information systems for improving business processes and to be able to create an innovative and valuable information system solution, through intensive learning process, research activities and collaboration with global industries;
3. Providing integrated knowledge to pursue further studies and create outstanding professionals, entrepreneurs, and leaders for a global community;
4. Providing professional services in Information System with an emphasis on the application of knowledge to society;
5. Improving the quality of life of Indonesians and the international community through leveraging Information system solutions.

Program Objective

The objectives of the program are:

1. To provide students with a solid foundation of system development skills and knowledge that they will need as a system analyst;
2. To prepare students with skills and in depth knowledge of information systems related to business intelligence, e-business and strategic information systems;
3. To provide students with the ability to use applied business knowledge for specific industry purposes.

Student Outcomes

After completing the study, graduates are:

1. Able to identify and formulate the root cause of information system performance through data and information analysis on business process;
2. Able to identify the database needs to build information system;
3. Able to design, create and manipulate and implement computer-based information systems through the study of information systems to develop a strategic plan for organizations;
4. Able to design, create, manipulate and implement computer based information system for new business model and process;
5. Able to communicate alternative solutions development and implementation of information systems based on theory either independently or in groups in writing, designing, and prototyping;
6. Able to manage, integrate and add value to the results of data analysis to generate quality information for organization needs;
7. Able to identify needs, design and implement system and ICT to build a web based business application for the organization;
8. Able to evaluate business process integration and corporate strategy for designing an integrated information system in an organization.
9. Able to identify the requirement, design, and implement the accounting information system in organization.
10. Able of identify and track the utilization and use of information system and Information & Communication Technology based on governance principles.
11. Able to use various accepted information systems audit standard or best practice for IS/IT Audit.
12. Able to examine business continuity and analyze disaster recovery plan.

Prospective Career of the Graduates

- | | | |
|------------------------------|--|--|
| 1. System Analyst | 13. IT/IS Consultant | 19. Information Systems Consultant |
| 2. Business Analyst | 14. Application Developer | |
| 3. Business Process Analyst | 15. Web-Developer/Web-Designer | 20. Management development program in a service, commerce, or industry |
| 4. E-Business Specialist | 16. System analyst, System designer, or System development project team leader | 21. Financial evaluator or controller in a public company |
| 5. ERP Specialist | | 22. Working in government institution or non-profit organization |
| 6. IT Architect | 17. Business analyst or business consultant | |
| 7. IT Consultant | | 23. Instructor or lecturer in the education institution |
| 8. System Designer | 18. Accounting Information Systems Specialist or Information specialist | |
| 9. Database Administrator | | |
| 10. Database Analyst | | |
| 11. Data Scientist | | |
| 12. User Experience Designer | | |

- | | | |
|------------------------------|--|------------------------------|
| 24. Working in research area | 28. IS Risk Management and Assurance Advisor | 31. Systems Analyst |
| 25. Develop entrepreneurship | 29. Forensic Analyst | 32. Systems Designer |
| 26. Internal IS/IT Auditor | 30. External IS/IT Auditor | 33. Business Process Analyst |
| 27. IS Security Consultant | | 34. Business Start Up Leader |

Curriculum

The Information Systems Study Program curriculum is designed by referring to the curriculum recommended by Association for Computing Machinery (ACM) and Association for Information Systems (AIS) for model curriculum and guidelines for undergraduate degree program in Information Systems. In addition, the curriculum has been influenced by foreign universities with a reputation for quality Information Systems Study Programs.

The curriculum for the next four years, therefore, consists of:

1. Information Systems, Business Process and Enterprise Systems.
2. Database, Information and Knowledge Management.
3. Information Systems Analysis and Design.
4. Programming, Testing, and Implementation.
5. Financial Accounting, Statistics, Research Methodology.
6. Concentration Subject: Strategic Information System, Business Intelligence, e-Business, Applied Database Applied ERP, Accounting Information System and Information Systems Audit.

TOTAL CREDITS 146 SCU				

*) This course is delivered in English

**) Global Learning System course

***) Entrepreneurship embedded

****) Elective Courses of Accounting Information System Stream:

- Students in Accounting Information System Stream will choose 4 courses (FINC6001 or ISYS6442) from elective course list on 4th semester
- Students in Accounting Information System Stream will choose 4 courses (ISYS6446 or ACCT6269) from elective course list on 5th semester

*****) Elective Courses of Applied ERP Stream:

- Students in Applied ERP Stream will choose 2 courses (ISYS6443 and ISYS6444; or ISYS6445 and ISYS6446) from elective course list on 5th semester

English University Courses:

-) For 1st Semester: English University Courses I, student with score BINUS UNIVERSITY English Proficiency Test less than 500 will take English in Focus, and student with score test greater than or equal to 500 will take English for Business Presentation
-) For 2nd Semester: English University Courses II, student with score BINUS UNIVERSITY English Proficiency Test less than 500 will take English Savvy, and student with score test greater than or equal to 500 will take English for Written Business Communication

Enrichment Program I (6th Semester) & Enrichment Program II (7th Semester):

-) Student will take one of enrichment program tracks (off campus). See enrichment appendix for the tracks detail.

Enrichment Track Scheme

Track	Semester 6						Semester 7					
	IN	RS	EN	CD	SA	etc	IN	RS	EN	CD	SA	etc
1			v						v			
2				v			v					
3					v		v					
4		v						v				
5		v					v					
6	v						v					
7	v							v				
8	v									v		
9	v										v	

Notes:

- IN : Internship
- RS : Research
- EN : Entrepreneurship
- CD : Community Development
- SA : Study Abroad
- etc : Study Program Special Purposes

Notes:

Student will take one of enrichment program tracks
