

Management

Introduction

The curriculum of the management program is designed as an anticipation to dynamics global competition, which requires organisational leadership and entrepreneurial skills with a strong ICT base and capability to continuously adapt and innovate in order to maintain sustainable growth and contribute to the society and the nation. This program will develop students knowledge in managing a company's operation and fostering their problem-solving skills to cope with a challenging situation. In this regard, the curriculum materials will emphasise the art of business, innovation and strategic thinking that are required to become a manager or business leader.

The graduates are expected to gain their potential to become future leaders. They can address business challenges through the following competencies: the ability to develop and manage the business, ability to apply information technology applications in business, ability to pursue the digital economy business, ability to optimise the capability and capacity of the organisation and its resources. They also are going to have the ability to optimize the use of management information systems and readiness to work in the various field both nationally and internationally. Management Curriculum also provides schematics and platform through the 3 + 1 Program, that allow the students to improve their practical and managerial capabilities as required by industry and to maintain its sustainable growth, and empowering the society and the nation.

The program uses, a multi-channel learning model. In this model, the students will have face to face sessions in the classroom, perform the self-study by using textbooks, e-book, video material and collaborative online learning. The method is intended to encourage the students to learn independently by utilising all available accesses and technology. Furthermore, by introducing ICT technology-based learning module, it will open a broad access for students to explore various educational resources from abroad.

Vision

To be an internationally recognized business school in the continuous pursuit of innovation in education.

Mission

We are committed to implement innovative mindset in business education and research to develop professionals who can meet the challenges of industries and society.

Learning Goals

By the completion of our program

1. Management Concept

Each student should be able to comprehend business and management concept.

2. Creative Thinking and Entrepreneurial Skills

Each student should be able to work innovatively by applying their adept thinking, entrepreneurial, and ICT skills.

3. Global Mindset

Each student should be able to perform global mindset in exercising business concept.

4. Ethics

Each student should be able to apply ethical and professional values.

Prospective Career of the Graduates

The graduate of the Management study program will have the skills in a wide range of professions, such as management and business consultant, as a middle manager in enterprises (including manufacturing, services, financial sector, education, e-business), and entrepreneur who understand the utilisation of ICT for business solutions. By demonstrating the competencies listed above, BINUS Business School Undergraduate Program Management will be ready to encounter the dynamic challenges of business.

Curriculum

The curriculum is based on the National Curriculum and Management program association that covers Management knowledge and skills as well as attitude to support core competence in the following optional subjects:

1. **E-Business:** Graduates will be expected to comprehend the design and management of the business in the digital era.
2. **Business Development Management:** Graduates will be able to integrate management principles and new business initiation into a comprehensive strategic plan that promotes sustainable growth.
3. **Business and Organization:** Graduates will be able to develop leadership skills, control and the business managerial role to anticipate challenges and competition of global organizations and businesses.
