

Management

Introduction

The curriculum of the management program is designed as an anticipation of the dynamics of global competition, which requires organisational leadership and entrepreneurial skills with a strong ICT base and the capability to continuously adapt and innovate to maintain sustainable growth and contribute to society and the nation. This program will develop students' knowledge in managing a company's operations and fostering their problem-solving skills to cope with a challenging situations. In this regard, the curriculum materials will emphasise the art of business, innovation and strategic thinking that are required to become a manager or business leader.

The graduates are expected to gain their potential to become future leaders. They can address business challenges through the following competencies: the ability to develop and manage the business, the ability to apply information technology applications in business, the ability to pursue the digital economy business, and the ability to optimise the capability and capacity of the organisation and its resources. They also are going to have the ability to optimize the use of management information systems and readiness to work in various fields both nationally and internationally. Management Curriculum also provides schematics and platforms through the 3 + 1 Program, minor program, cross streaming, campus mobility and free electives that allow the students to improve their practical and managerial capabilities as required by industry and to maintain its sustainable growth, empowering the society and the nation.

The program uses, a multi-channel learning model. In this model, the students will have face-to-face sessions in the classroom, and perform the self-study by using textbooks, e-books, video material and collaborative online learning. The method is intended to encourage the students to learn independently by utilising all available accesses and technology. Furthermore, introducing ICT technology-based learning module will open broad access for students to explore various educational resources from abroad.

Vision

A world-class management study program, aimed at advancing management knowledge and sustainable business practices while empowering society to serve and build the nation.

Mission

Providing world class business education to build the nation and to contribute to community development by means of:

- 1. Educating BINUSIANS to develop exemplary characters through holistic approach.**
Educating BINUSIANS to be ethical & innovative graduates with multiple skills to deal with business challenges using holistic approach.
- 2. Resolving business and entrepreneurship issues with meaningful and relevant research.**
Encouraging BINUSIAN to advance knowledge and practices with high quality research for resolving business and entrepreneurship issues.
- 3. Fostering BINUSIANS through self-enrichment.**
Nourishing BINUSIANS' SPIRIT for improving personal and professional capabilities
- 4. Empowering BINUSIANS to continuously improve business community.**
Invigorating BINUSIANS to solve the business community challenges through academic and community service activities.

Program Objectives

The objectives of the program are:

1. Provide students with business and managerial knowledge and skills for exploration and active participation in sustainable and digital business landscape
2. Equip students with digital technology and analytical skills for entrepreneurial and ethical business and management practices finance and business organizations and provide tools used in business analysis.
3. Nurture students to be professional, creative, and forward looking in organization, community and global context.

Learning Goals

By the completion of our program

1. Management and Business Concepts

Each student should be able to comprehend management and business concepts.

2. Problem Solving and Entrepreneurial Skills

Each student should be able to systematically and innovatively solve problems and overcome challenges in businesses.

3. Global and Sustainability Mindsets

Each student should be able to perform global and sustainability mindsets in applying business concepts.

4. Professionalism and Ethical Competence

Each student should be able to apply ethical and professional values.

Prospective Career of the Graduates

The graduate of the Management study program will have the skills in a wide range of professions, such as management and business consultant, a middle manager in enterprises (including manufacturing, services, financial sector, education, and e-business), and entrepreneur who understand the utilisation of ICT for business solutions. By demonstrating the competencies listed above, BINUS Business School Undergraduate Program Management will be ready to encounter the dynamic challenges of business.

Curriculum

The curriculum is based on the National Curriculum and Management program association that covers Management knowledge and skills as well as attitude to support core competence in the following optional subjects:

1. **E-Business & Digitalization:** Graduates will be expected to comprehend the design and management of the business in the digital era.
2. **Business Development & Transformation:** Graduates will be able to integrate management principles and new business initiation into a comprehensive strategic plan that promotes sustainable growth.
3. **Business Organizational Dynamics:** Graduates will be able to develop leadership skills, control and the business managerial role to anticipate the challenges and competition of global organizations and businesses.

1. Minor Program: Blockchain Technology and Business

Introduction

Blockchain is currently one of the fastest-growing industries in the technology sector. Also, based on Gemini's 2022 outlook, Indonesia is the most crypto-adopting country in Asia. The blockchain minor program initiative at BINUS could facilitate the students to learn and explore the technology. The Blockchain minor program explores the concept and development of blockchain from the technology and business perspectives. Beyond the blockchain concept, students will learn how to develop smart contracts and understand the architectural needs of a blockchain-based application. Finally, students will apply their knowledge in a project-oriented capstone course, during which they will design and develop a practical application of blockchain technology.

Career Options

Blockchain Consultant, Blockchain Architect, Blockchain Security Auditor, Token Economy Consultant, Smart Contract Developer, Web3 Entrepreneur.

Introduction

You've probably heard it by now: Content is king. But why? Those days Consumers are going online, marketing has gone digital, and content creation is more important now than ever. Content creation encapsulates copywriting, design, production and other media that provide value and connect you to your target audience. Matching search intent and providing value (to the consumer and brand) is the foundation of successful content creation. Content creators produce work on a variety of platforms including social media, blogs, podcasts, video platforms, case studies, white papers, infographics and more.

Career Options

Content Creator, Influencer, Social media Specialist.

20. Minor Program: Immersive Journey to Japanese Language and Culture

Introduction

Immersive Journey to Japanese Language and Culture Minor program is focused on the basic learning of the Japanese language (equivalent to N5 or corresponding to CEFR levels A1 to A2). This includes an understanding of Japanese characters (Hiragana, Katakana, basic Kanji) and grammar. Additionally, it encompasses the comprehension of reading and listening skills in Japanese, covering vocabulary, phrases, and simple sentences. This program also includes the development of basic writing and speaking skills in Japanese.

Upon completion of this minor, students will be prepared to read Japanese written in Hiragana, Katakana, and basic Kanji, as well as understand everyday conversations in the Japanese language. Subsequently, students will be equipped to engage in basic-level Japanese speaking and writing.

The outcomes of this minor, built upon a foundation of basic Japanese language proficiency, will benefit students who plan to study abroad in Japan, travel to Japan, or pursue interests and hobbies related to Japan.

Career Options

Working in Japan, either in Indonesia or Japan, in the following fields as Consultant, Front Office, Tour Guide, Secretary, Finance, HR, Industry Creative (Content creator, dubber, cosplayer).

22. Minor Program: Global Business

Introduction

The Global Business minor program is designed for students who aspire to integrate creativity, business acumen, and technological expertise in a global context. This program equips students with essential knowledge and skills in digital business innovation, creative industry management, and emerging technologies. Students will explore topics such as digital entrepreneurship, creative content monetization, business model innovation, and the application of advanced technologies like artificial intelligence, blockchain, and immersive media in creative industries. By combining business strategy with technological advancements, this minor prepares students to become agile professionals capable of navigating and leading in the evolving global marketplace. This program is ideal for students from various disciplines who wish to enhance their competencies in creative business and technology, fostering interdisciplinary innovation and international competitiveness.

Career Options

Digital Business Strategist, Creative Entrepreneur, Digital Marketing Specialist, UX/UI Designer, Tech- Driven Product Manager, Creative Industry Manager, E-commerce & Content Monetization Expert, Brand & Digital Experience Manager, Creative Technologist.
