

## Hotel Management

### Introduction

The Hotel Management Program at BINUS offers a comprehensive Bachelor of Applied Tourism (*Sarjana Terapan Pariwisata*) Program focused on equipping students for successful careers in the dynamic hotel and hospitality industry. With national accreditation of “*Baik Sekali*” from BAN-PT and international certifications such as TedQual from the United Nations World Tourism Organization and HEEACT from Taiwan, the program ensures adherence to global standards of education. Students benefit from a curriculum that emphasizes both management fundamentals and specialized streams: Culinary Art and Hotel Operation Services. These streams are designed to cultivate expertise in culinary competencies and hotel operations, respectively, supported by state-of-the-art equipment, systems, technology, and sustainability awareness.

From the first semester through the fourth semester, the Hotel Management Program at BINUS integrates practical classes to provide hands-on learning experiences essential for industry readiness. Additionally, through the Independent Learning Independent Campus (*Merdeka Belajar Kampus Merdeka - MBKM*) initiative, students have the flexibility to pursue courses aligned with their talents and interests, including options from other study programs and institutions. This initiative aims to broaden students’ knowledge base and enhance their skills, preparing them to excel in diverse roles within the hospitality sector.

Furthermore, the program emphasizes experiential learning through a one-year enrichment program that encompasses a variety of tracks, including industry internships both domestically and internationally. This opportunity allows students to immerse themselves in esteemed hotels, restaurants, convention centers, and other hospitality venues, in gaining invaluable work experience. Additionally, students have the option to participate in study abroad programs, conduct research, pursue entrepreneurship ventures, or contribute to community development. Students will graduate equipped with the skills and knowledge to excel in various roles within the global hospitality sector.

Complementing these practical experiences are guest lectures, seminars, workshops, industry visits, and participation in national and international hospitality competitions. Moreover, recognizing the importance of emerging technologies, the curriculum incorporates basic knowledge of artificial intelligence (AI), preparing students to leverage AI applications in enhancing guest experiences, optimizing operations, and driving innovation in hospitality management.

Upon graduation, students are encouraged to pursue nationally recognized certifications in hotel competencies, enhancing their marketability for employment in multinational hospitality corporations, global food and beverage startups, and other sectors of the industry, including establishing their own entrepreneur business. The program’s blend of international and local content ensures graduates are equipped to manage diverse hotel operations effectively in today’s competitive global marketplace.

### Vision

A world class hospitality education nurturing the community and fostering sustainable collaboration.

## **Mission**

The mission of Hotel Management department is to contribute to the global community through the provision of world-class education by:

1. Educating students with a high level of hospitality knowledge, skills, and attitude, to become hotelier by providing innovative and creative learning.
2. Educating students to become hospitality leaders in a diverse work environment and prepare for further study.
3. Improving quality of life for Indonesians through nurturing community in the hospitality sector.
4. Maintaining and acknowledging hospitality talents through collaborative research and benchmarking that leads to sustainable competitive advantage.
5. Being the main driver to enrich BINUS University system.

## **Program Objective**

The objectives of the programme are:

1. To provide students with a high level of hospitality knowledge skills, and attitude in order to improve community quality of life.
2. To equip students with managerial capabilities through research and work experiences in order to become hospitality leaders and pursue further study.
3. To prepare students to become a global hospitality talent by fostering collaboration and benchmark that leads to sustainable competitive advantage.

## **Student Outcomes**

After completing the study, graduates are:

1. Able to apply hotel operations in the room division and food and beverage division to produce products and services that are supported by technology and in accordance with industry quality standards;
2. Able to perform hotel managerial functions of room division and food and beverage department;
3. Able to demonstrate procedures for food production and food processing services that are in accordance with the development and innovation of the hospitality industry;
4. Able to interpret the concept of hospitality and the managerial functions in sales marketing, finance, human resources, and safety aligned with the concept of sustainability and Global Code of Ethics for Tourism;
5. Able to create culinary products complying the knowledge, skills, techniques, and technology refer to industry quality standards;
6. Able to produce beverage products in the Food & Beverage Service Department and produce excellent service in the Room Division with the right knowledge, techniques, equipment, expertise and creativity as well as using technology that is in accordance with industry standards;
7. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

## Prospective Careers of the Graduates

Graduates will be able to pursue national and international career paths in the hospitality industry at managerial as well as operational levels worldwide. The managerial positions open for Hotel Management graduates are varied and limitless. With a hospitality qualification, a graduate can choose from a wide range of careers. The career options include:

1. Food Production (Kitchen & Pastry)  
chef de cuisine, chef de partie, demi chef, pastry chef, executive chef, celebrity chef, chef on board, catering manager, production manager, kitchen manager, chief steward, kitchen artist, cost controller, food blogger, research & development, and consultant.

**16. Minor Program: Immersive Journey to Japanese Language and Culture**
**Introduction**

Immersive Journey to Japanese Language and Culture Minor program is focused on the basic learning of the Japanese language (equivalent to N5 or corresponding to CEFR levels A1 to A2). This includes an understanding of Japanese characters (Hiragana, Katakana, basic Kanji) and grammar. Additionally, it encompasses the comprehension of reading and listening skills in Japanese, covering vocabulary, phrases, and simple sentences. This program also includes the development of basic writing and speaking skills in Japanese.

Upon completion of this minor, students will be prepared to read Japanese written in Hiragana, Katakana, and basic Kanji, as well as understand everyday conversations in the Japanese language. Subsequently, students will be equipped to engage in basic-level Japanese speaking and writing.

The outcomes of this minor, built upon a foundation of basic Japanese language proficiency, will benefit students who plan to study abroad in Japan, travel to Japan, or pursue interests and hobbies related to Japan.

### Career Options

Working in Japan, either in Indonesia or Japan, in the following fields as Consultant, Front Office, Tour Guide, Secretary, Finance, HR, Industry Creative (Content creator, dubber, cosplayer).

## 18. Minor Program: Global Business

### Introduction

The Global Business minor program is designed for students who aspire to integrate creativity, business acumen, and technological expertise in a global context. This program equips students with essential knowledge and skills in digital business innovation, creative industry management, and emerging technologies. Students will explore topics such as digital entrepreneurship, creative content monetization, business model innovation, and the application of advanced technologies like artificial intelligence, blockchain, and immersive media in creative industries. By combining business strategy with technological advancements, this minor prepares students to become agile professionals capable of navigating and leading in the evolving global marketplace. This program is ideal for students from various disciplines who wish to enhance their competencies in creative business and technology, fostering interdisciplinary innovation and international competitiveness.

### Career Options

Digital Business Strategist, Creative Entrepreneur, Digital Marketing Specialist, UX/UI Designer, Tech-Driven Product Manager, Creative Industry Manager, E-commerce & Content Monetization Expert, Brand & Digital Experience Manager, Creative Technologist.
