Accounting Program (Bekasi Campus)

Introduction

The Accounting Technology Program in Bekasi Campus is a unique program which focuses on how accounting interacts with the latest development in accounting technology. The Program has been designed with the future in mind to anticipate rapid changes in technology that result in a disruption, including big data analytics and fin-tech. The Accounting Technology Program curriculum provides you with technical expertise in the field of traditional accounting and develops your critical thinking, team-building, communication and information technology skills. As part of the BINUS UNIVERSITY – Accounting Study Program, the Accounting Technology Program in Bekasi is accredited with a grade of UNGGUL by the National Accreditation Board. The Program is also internationally accredited by HEEACT (Higher Education Evaluation and Accreditation Council of Taiwan)

Vision

A world-class undergraduate Accounting Study Program that produces professional accountants with business skills, data science analysis, and applied information technology (IT) expertise with the continuous commitment of fostering and empowering the society.

Mission

The mission of undergraduate Accounting Technology Program is to build the nation and to contribute in global community development by providing world class education by means of:

1. Educating Accounting students to develop exemplary characters and professional competency in the area of accounting through holistic approach that meets global standards;
2. Resolving the nation's issues through high impact research in the area of accounting;
3. Fostering BINUSIAN within Accounting study program as lifelong learners through self-enrichment;
4. Empowering BINUSIAN within Accounting study program to continuously improve society's quality of life.

Program Objective

The objectives of the program are:

1. Preparing accounting students to have professional skills, high integrity, care for society's, global minded and responsive to scientific and technological advances required by industry;
