

Visual Communication Design - Creative Advertising

Introduction

Creative Advertising S1 Program aims to provide good creative education for future creative people in the advertising industry, allowing them to work together in creative teams to produce the best contemporary visual design for advertising.

In this Program, future students will learn how visual communication design artworks are created, and also about the formulation of creative ideas needed in commercials that are based on design theories and have historical perspectives.

We will help students strengthen their design ability and idea creation by also providing classes in marketing introduction, consumer psychology, copywriting, and media. That way, students will have a good understanding of a complete and thorough commercial campaign.

Vision

Visual Communication Design Study Program that produces world-class designers who are able to foster and empower the society, expertise in creative technology and elevating the local values.

Mission

The mission of Visual Communication Design are to:

1. Educate prospective visual communication designers who have commitment to a professional attitude and aware with the local values.
2. Prepare students to be able to occupy strategic positions and be recognized in the industrial / professional world while still upholding professional ethics and being able to contribute to Indonesian society.
3. Fostering cooperative relationships with various parties both national and international to always maintain the proficiency of the knowledge for the students.

Program Objective

The objectives of the program are:

1. Provide graduates with a global mindset who have Visual Communication Design knowledge that carries the values of local wisdom, technology, and entrepreneurship so that they are able to work and be accepted by the creative industry, society, and the nation through the application of knowledge that is utilized with communication and information technology
2. To educate graduates who are capable of producing Creative Advertising design portfolios that vividly demonstrate workmanships, creativity, conceptual insights, and attitudes of a professional design standard.

Student Outcomes

After completing their studies, graduates are:

1. Able to create printed and digital Visual Communication Design (VCD) works that have added values and aesthetics to overcome problems of identity, mass communication, and competition faced by stakeholders;
2. Able to conduct research and idea exploration to set the objectives, communication targets, and Visual Communication Design (VCD) prototype solutions that can overcome problems of identity, mass communication, and competition by considering the aspects of ethical, historical, cultural, social consequences, regulations and technology;

3. Able to analyze efficiency of material utilization and time in the production process of each selected alternative solution prototype of Visual Communication Design (VCD), without changing the essence and aesthetic design;
4. Able to develop visual communication works that put forward the value of local cultural wisdom in various visual communication media in accordance with the development of information technology;
5. Able to use product values and consumer's needs in order to produce relevant visual communication ideas;
6. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

Prospective Career of the Graduates

After graduating from this Program, there are so many promising career paths in the creative industry that are ready to be occupied. Most graduates are now working in advertising agencies, e-commerce business, design studios, photography studios, illustration studios, production houses, event organizers, media industries, and in-house design at companies. Some of them were even able to commence their own start-up creative business.

Future career paths:

1. Art Director
2. Graphic Designer
3. Commercial Photographer
4. Digital Imaging Artist
5. Illustrator
6. Videographer
7. Creative Entrepreneurs

Curriculum

There are five main categories in Creative Advertising program:

1. Fundamental Design (Semester 1-2)

Students explore the theories and design practice in terms of: design elements & principles, layout, semiotics, visual language, aesthetics, design value, the matters of size, composition, design materials, colors, as well as character building.

2. Design Execution and Computing (Semester 3-4)

Students explore the theories and design practice in terms of: computer graphic, printing techniques, Digital Imaging, illustration, photography, videography, website, and motion image.

3. Ideation, Art Direction & Design Integrated (Semester 4-5)

In this term, student's ability in problem solving is required. To what extent students gather several data, bring them into the idea development methods, and last but not least, present the idea into several media integrally. It will be supported by some courses, such as marketing and consumer behavior, ideation and art direction, advertising media, and entrepreneurship.

4. Enrichment Program (Semester 6-7)

Enrichment program of Creative Advertising aims to gain student's soft skills regarding teamwork, leadership, and professional attitudes, as well as their hard skills in implementing the knowledge they acquired from classroom. In the 6th semester, students will have a four months internship experience in the advertising industry or other creative industries. Meanwhile, in the 7th semester, students will have more opportunities (five different tracks), including: internship for industry experience, community development in social issues, entrepreneurship to build start-up business, research, and study abroad to enrich cultural experience.

5. Final Project (Semester 8)

In the last semester, students are required to solve a problem through an integrated campaign. Both design concept and strategy will be put in the academic paper. In addition, students need to implement their ideas into a complete creative display. It aims to evaluate student's abilities in data analysis, idea development, problem solving, and design execution.
