

Interior Design

Introduction

Interior Design is one of 16 Creative Economy sub sectors in Indonesia. According to Gazali, A. and Nadinastiti (2015), interior design is "... activities that solve interior function and quality problems, provide interior space related services, and prepare drawings and documents related to interior spaces to improve quality of life to meet health, safety aspects. and public convenience. ". Therefore, the interior design subsector has an important role in adding competitive advantage to Micro-Small-Medium Enterprises (MSMEs) products and industries through exploration of designs related to community and environmental interests. In this case, the role of Interior Design is related to the creative process and design decisions that ultimately can produce solutions in the form of creative work that has added value and can contribute to local and global problems and solutions that potentially increase the welfare of local society.

Starting 2008, BINUS UNIVERSITY @Greater Jakarta has opened Interior Design Department in the School of Design. Our aim is to prepare successful graduates in interior industry as well as enabling them for the global community. Our vision is to become a world-class interior design department, delivering international standard designers with strength in local indigenous and latest technology. In Interior Design Department - Binus University @Greater Jakarta, students will learn to be able to design their (simple to complex) commercial design and hospitality or furniture and interior design accessories projects, such as residential, apartment, retail, office, and hotel independently and in a teamwork environment. Interior Design students - Binus University @Greater Jakarta has the opportunity for personal development, establish relationships, networking, and collaborate within Binus University, local and global institutions, industries, community, government, and media.

In Interior Design Department - Binus University @Greater Jakarta, the creative design works are integrating and implementing a series of interrelated course subjects. By learning series of Interior Design and Furniture Design courses, such as Methodology, Green Design, Interior Drawing, Material Knowledge, Entrepreneurship, Art History and others, strengthen the design results for more valuable outcomes.

The creative design results are involving the design research and design processes that include design analysis, design development, effective design decision making, project prototyping, and project evaluation. For example, the ability to implement the substitute materials derived from waste materials as part of the interior design elements, such as wall, floor, ceiling, furniture, and interior accessories design potentially become student's competitive advantage in resulting good design results, moreover if the waste material processes involved local communities, and MSMEs. The students, then, will learn, understand and able to implement the creative design work projects that has competitive advantage values, support the sustainability of MSMEs and contribute to the welfare of local society.

In addition, students are welcome to join the Interior Design Student Association and other student activities under Binus University. The Interior Design Department - Binus University @Greater Jakarta, continuously encourage the students for their personal development through student participation in various local and international student activities, such as seminars, design excursion, workshops, and competition that potentially broaden the students' creative insights and experiences.

Interior Design's graduates of BINUS UNIVERSITY @Greater Jakarta will become professionals in a global environment. They will be prepared professionally and scientifically. Therefore, by finishing their Bachelor program, they can step directly into professional practices. Graduates will have the ability to design hospitality and

commercial design or furniture and interior design accessories. These graduates will not only be proficient in scientific and practical abilities in the Interior Design sector but also, they will have the spirit and entrepreneurship skills needed in the future.

Vision

A world class Interior Design Department, delivering international standard designers with strengths in local values, IT and green design.

Mission

The mission of Interior Design are to:

1. Educating students in the fundamental skills of designing, with a focus on the latest technology, eco design and local content by providing excellent study facilities and internships that prepare students for global service industries or for continuing to an advance degree in interior design or related disciplines.
2. Preparing students who have a strong sense of ethics and local values, an entrepreneurial spirit, and are ready to take on strategic positions in service industries and make a contribution to society.
3. Recognizing and rewarding the most creative and value-adding talents.
4. Improving the quality of life of Indonesians and the International community.
5. Designing creative products and conducting professional services in interior design fields with an emphasis on the application of knowledge to society.

Program Objective

The objectives of the program are:

1. To provide students with innovative and creative design abilities, especially in eco design and local content, by using the latest technology and approaches;
2. To provide students with design abilities and knowledge, ranging from fundamental principles to applied skills and abilities;
3. To prepare students with necessary skills and knowledge of interior design that enables them to become an entrepreneur or a professional in a global environment.

Student Outcomes

After completing the study, graduates are:

1. Able to integrate thematic interior concepts (furniture, walls, ceilings, and floors) with the results of studies on behavior aspects, technicals, and values related to interior design based on technical and aesthetic characteristics of materials;
2. Able to design interiors independently, verbally and visually communicated, both manual and digital to meet the needs of the user communities from residential scales to public spaces based on design theory;
3. Able to produce interior design works that prioritize local indigenous, environmentally friendly (green design) and sustainability using technology that supports the field of design as a proposed solution to problems and fulfill community needs, which can be accounted for academically and meet the requirements of function, aesthetics, construction, and meaning;
4. Able to design Commercial & Hospitality Interiors by paying attention to space requirements and user behavior in accordance with developing trends;
5. Able to design furniture and interior accessories by paying attention to the needs of user behavior in accordance with development trends;

6. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

Prospective Career of the Graduates

Graduates will be prepared not only as a professional interior designer, but also be able to create and open new working opportunities for other professions which are related; because of their ability to be an entrepreneur. This availability of working opportunities such as:

Commercial and Hospitality Design

- Interior design consultant
- Interior design contractor
- Real estate/property contractor
- Project Management
- Project Marketing
- Procurement
- Purchasing
- Merchandising Setting designer
- Commercial retailer
- Exhibition organizer
- Visual merchandise/window display designer
- Stylist for interior magazine
- Book writer
- Lighting designer

Furniture and Interior Design Accessories

- Interior design consultant
- Interior design contractor
- Furniture designer
- Manufacturer of Interior accessories
- Furniture & home accessories shop/gallery owner
- Retailer
- Stylist for magazine/production house
- Interior Decorator/Home decorator Home accessories designer
- Book writer
- Trader
- Supplier (furniture/accessories interior)
- Workshop owner
- Product Development
- Retail Manager
- Buyer Merchandizing

Smart Living & Environmental Design

- Interior Design Consultant
- Interior design contractor
- Interior Procurement
- Visual Merchandiser
- Interior Book Writer
- Lighting Designer
- Furniture Designer
- Home Accessories Designer
- Workshop Management
- Product Development
- Retail Management
- Project Management

Techno Interior Design

- Interior Designer
- Interior Design Firm
- Interior Build Contractor
- Interior Decorator Consultant
- Interior Design 3D Artist
- Interior Design Drafter
- Interior Supplier
- Interior Apps Creator

Curriculum

Interior design Department - School of Design has 3+1 curriculum. On their 6th to 7th semester, there are six enrichment programs that can be chosen by students based on their passion and knowledge. These programs are internship in industry, research in interior and furniture, community development, start-up business, study abroad and specific independent study. With these experiences, students will gain more knowledge regarding their contribution to industry and community.

The curriculum also accommodates the main objective of the program opening i.e. creating a qualified interior designer. Graduates will have entrepreneur spirit, well-equipped professional skills, excellent personality as well as the competency in ICT skills.

Currently, the Interior Design program provides four concentrations that the students can choose from according to their goals and interests:

Commercial & Hospitality Design:

This stream provides students with an ability to design commercial & hospitality space, such as: design of apartments and houses, shops, restaurants, offices, hotels, hospitals, schools, etc.

Furniture and Interior Design Accessories:

This stream provides students with an ability to design furniture and accessories for both residential and commercial such as hotels, offices, restaurants, by observing the terms of ergonomics, functionality & aesthetic.

Smart Living & Environmental Design:

This stream provides students with an ability to apply the latest technology appropriately into spatial design. The skills include Experimental & Lighting Design, Environmental Graphic Design, Technology & Lifestyle in Design, Interior Product Prototyping, Exhibition Design, Environmental & Sustainability Design, Interior Behaviour & Experience, dan Interior In Digital Interactive.

Techno Interior Design:

This stream provides students with an ability to apply techniques optimally in interior design projects by mastering the technical aspects of project presentation in accordance with technological trends.

1) This course is delivered in English

- 2) Global Learning System course
- 3) Conducted for student mobility program in BINUS @Malang
- 4) Conducted for student mobility program in BINUS @Bandung

The detail of mobility, including streaming name and course information, may be subject to change at any time depending on the curriculum requirements of each campus. Students will be informed about any updates to mobility streaming during the registration period.

-) **AOL** - Assurance of Learning Process System
-) **AIE** - Artificial Intelligence Embedded Course

Streaming or Minor or Free Electives or Mobility:

-) For 4th Semester: Students are required to choose Streaming or Minor or Free Electives or Mobility. For Free Electives, students are required to choose from the list of Free Electives in Appendix.
-) For 5th Semester: Students will continue to study the Stream and one of the Minor Program or Free Electives or Mobility that has been chosen in semester 4. For Free Electives, students are required to choose from the list of Free Electives in Appendix.

Foreign Language Courses:

Students will take foreign language courses according to BINUS University English proficiency test results. See foreign language courses appendix for the details. Students must pass with a minimum Grade of C.

Appendix Foreign Language Courses

Foreign Language Courses		SCU
ENGL6253008	English for Frontrunners	0
ENGL6254008	English for Independent Users	0
ENGL6255008	English for Professionals	0
JAPN6190008	Basic Japanese Language*	0
CHIN6163008	Basic Chinese Language*	0

*) This course is optional for students

1. Students with Binus University English Proficiency Test score less than 437 are required to take English for Frontrunners and English for Independent Users.
2. Students with Binus University English Proficiency Test score less than 520 are required to take English for Independent Users and English for Professionals.
3. Students with Binus University English Proficiency Test score equal to or greater than 520 are required to take English for Professionals. Additionally, students may choose to take either Basic Japanese Language or Basic Chinese Language.
4. Students are required to pass the foreign language courses before they take enrichment.
5. Students can see the requirements to pass the foreign language courses at BINUSMAYA – Beelinguua.
