

International Business

Introduction

Located in the heart of Jakarta's capital city and part of the Faculty of Business in BINUS International, the International Business program (IB) is designed to encourage students to demonstrate their competencies in business-related content in an international environment. The program offers Double Degree, Study Abroad, or Master Track programs in various international partner universities. The experience of learning and traveling creates working opportunities through global internships and prepares our students to develop their cross-cultural skills as potential managers and professionals.

The program is designated to cater for ASEAN-related subjects, which accommodates the need to equip the level of understanding of business, as well as cultural aspects in the Southeast Asian region. This aligns with the application of the ASEAN Economic Community (AEC) in 2016 for all ASEAN members. With relevant entrepreneurial skills obtained in class, it is expected that the students will be equipped to grasp a wide range of business environments, both in the ASEAN region and worldwide.

Students are exposed to global business applications and practices from around the world. The program is taught by well-qualified academics from some of the most prestigious business schools and with rich industry experience. The program also draws extensively upon the teaching experience of its international collaborative partner universities. Our international learning experience prepares our graduates to successfully engage with prestigious SMEs and multinational organizations.

Program Description

The International Business program encourages students to undertake Double Degree, Study Abroad, or Master Track programs in various international partner universities. The experience of traveling, living and/or even having internship abroad will bring opportunities for students to develop their cross-cultural skills. Moreover, the students are expected to be exposed to different business applications and practices from different countries. Therefore, all International Business students are obliged to participate in any activity that requires them to go aboard for an international exposure and experience.

The International Business curriculum is designed to meet high expectations of a concise yet comprehensive context in the global business environment and with an entrepreneurial mindset. The program introduced a 3+1 scheme, which enabled students to undergo a 3-year in-class method, and a 1-year out-of-campus experience. The four-year study program is intended to equip students with the fundamentals of international business and management competencies and understanding of doing business in an international context, combined with an in-depth cultural experience. All case studies, readings, and textbooks, related to Southeast Asian (ASEAN) and entrepreneurship are carefully selected to enhance the students' global perspectives. In this program, they will learn practical skills and theoretical knowledge in international business to meet industry standards.

The Head of Program

“The International Business program offers applicable and updated courses related to the business context in Southeast Asia as well as worldwide. Our students are equipped with hands-on business applications and entrepreneurial skills, which enable them to develop their creativity and business-sense capacity. Supported by qualified lecturers from various nations and international standard facilities on campus, the International Business program welcomes prospective students to pursue their goals in developing an international business perspective.”

Marko S. Hermawan, MIB, PhD – Head of the International Business Program

Vision

To be an internationally recognized business school in the continuous pursuit of innovation in education.

Mission

We are committed to implement innovative mindset in business education and research to develop professionals who can meet the challenges of industries and society.

Learning Goals

By the completion of our program

1. Management Concept

Each student should be able to comprehend business and management concept.

2. Creative Thinking and Entrepreneurial Skills

Each student should be able to work innovatively by applying their adept thinking, entrepreneurial, and ICT skills.

3. Global Mindset

Each student should be able to perform global mindset in exercising business concept.

4. Ethics

Each student should be able to apply ethical and professional values.

Prospective Career of the Graduates

A wide range of career opportunities in different industries is introduced in which students will be prepared throughout the four years of study. The integrated curriculum is designed and developed to support students in building on their knowledge and practical skills as well as engaging with industry. Options of career opportunities upon graduating from International Business are:

- International brand manager
- Assistant export manager or import management
- Management trainee in MNCs
- Assistant international marketing development
- Assistant HR in MNCs
- Assistant financial manager in MNCs
- Trade development officer
- International account executive
- Supply chain management officer
- International purchasing officer

- International business analyst
- Diplomat
- Education abroad counselor
- Foreign sales representatives
- International program coordinator
- Entrepreneur

The International Business program provides an internship program for each student wherein the student may face the real challenges in industrial contexts. The program develops the students' ability to be involved in professional practices, and ethical and organizational responsibilities. Furthermore, the industrial internship program provides students with real experience in the workplace and teaches them how to cope with the work environment. In addition, a series of study/field trips to visiting professionals and industries will be conducted to give good grounds for having a broad overview of the industry. These experiences support individual career aspirations and may provide social and professional networks.

BINUS University also provides career support for students by disseminating information on the latest job vacancies, internships, and workshops. This support service can be accessed from www.binuscareer.com.

Award/Degree

- *Sarjana Ekonomi* (S.E.) from BINUS University
- Double Degree with Bachelor of Arts (BA) from Cologne Business School, Germany
- Double Degree with Bachelor of Arts (B.A.Hons.) from Bournemouth University, United Kingdom
- Double Degree with Bachelor of Business Administration (B.BA) from International College of Ningbo University, China
- Double Degree with Bachelor of Business Administration (B.BA) from SolBridge International School of Business, Woosong University, Korea.
- Double degree with Bachelor of Commerce (B.Com) from University of New South Wales, Australia
- Double degree with Bachelor of Commerce (B.Com) from Victoria University Wellington, New Zealand
- Master track degree; *Sarjana Ekonomi* (S.E.) from BINUS University and Master of Science in Management from IESEG School of Management, France

Teaching, Learning, and Assessment Strategy

The teaching and learning processes are conducted through lectures, tutorials, practical demonstrations and activities, completed with students' independent study. It is the responsibility of the lecturer of a particular course to facilitate all students' learning on the course, who can be assisted by a mentor, if necessary. By having qualified lecturers and guest lecturers from professional industries, the students will be able to gain knowledge from both sides, i.e. theoretical and practical frameworks, through in-depth analysis of case studies, and individual/groupwork projects. For doing their research activities, students can access magazines, books, academic journal in a good quality library – including accessing the online library to get updated academic papers. All course-work is assessed through a variety of assessment tasks such as reports, presentations, assignments, individual and group projects, and thesis/final project report as well as mid-semester and final semester examinations.

A series of extra-curricular activities are compulsory in the International Business program. These activities will allow students to develop their social awareness, competitive and soft skills needed to be prepared for the work environment.

In addition, the innovation habits will be developed through course assessments that emphasize innovation and entrepreneurial skills. Project Hatchery and Entrepreneurship Hatchery are courses that reflect such competence designed by the Center for Innovation, Design, Entrepreneurship and Research (CIDER). Students are required to translate their selected innovative ideas into a visible design to comprehend the end-to-end innovation process. This innovation thinking approach is implemented in the teaching, learning, and assessment process of several courses throughout the program.

Study Completion Requirements

To complete a major in International Business with either a single or double degree (DD), students must complete a minimum of 146 SCUs. Available streaming courses are available in this program, namely: Asian Business Studies (DD with SolBridge International School of Business, I-Shou University, or Ningbo University), Business in ASEAN (single degree), International Business (DD with Cologne Business School), Commerce and Management (DD with University of New South Wales, Victoria University of Wellington, or Bournemouth University).
