

Civil Engineering

Introduction

Civil Engineering is a profession in which knowledge of mathematics and physical sciences are applied, ranging from providing structures for the use of civilization to creating, improving, and protecting the environment, as well as providing facilities for transportation, infrastructures, and industries. Civil engineers are involved in the planning, design, construction and operation of complex systems such as buildings and bridges, water purification and distribution systems, flood protections, highways, rapid transit and rail systems, coastal protection and harbors, airports, tunnels and underground constructions, dams, and power generators. Civil engineers are also involved in city planning, water, energy, and land remediation, as well as hazardous waste and chemicals disposal.

Civil Engineering Study Program at BINUS UNIVERSITY offers comprehensive programs leading to a bachelor degree in Civil Engineering.

Vision

World-Class Civil Engineering Program, with innovative knowledge to fostering and empowering the society through research and application of digital technology to achieve sustainable infrastructure in serving and building the nation.

Mission

The missions of Civil Engineering Study Program are:

1. Educating Civil Engineering BINUSIAN to develop exemplary characters through holistic approach that meets global standards;
2. Resolving the nation's issues through innovative and applied research projects in Civil Engineering field;
3. Fostering Civil Engineering BINUSIAN as lifelong learners through self-enrichment in improving knowledge in Civil Engineering;
4. Empowering Civil Engineering BINUSIAN to continuously serve society- based needs through sustainable technology development;
5. Being the main driver to enrich the BINUS Higher Education system by using Civil Engineering knowledge and applied technology.

Program Objective

The objectives of the program are:

1. Graduates will continue updating their professional development in Civil Engineering related field to benefit the organization and society;
2. Graduates will utilize professional and ethical related skills to work productively within their professions and communities.

Student Outcomes

After completing the study, graduates:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
3. An ability to communicate effectively with a range of audiences;

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies, and computer application based on information and communication technology (ICT).

Prospective Career of the Graduates

Graduates of the Civil Engineering Study Program at Bina Nusantara University will be able to apply their knowledge and interpersonal skills in careers, both in private and public sectors, to conceive, plan, design, implement, operate and maintain the systems needed to support the physical infrastructure. Bina Nusantara University is committed to provide its undergraduate program with excellent academic preparation and interpersonal skills for direct entry into the profession, or post-graduate studies.

Graduates will be able to pursue a variety of career options in worldwide locations due to demands for improvements to civil infrastructure that are ever-present, because of population growth and deterioration of existing systems over time. Several career options are including but not limited to the following:

1. Structural Engineering: Structural Engineer, Project Civil Engineer, Precast Project Engineer, Civil Designer, Offshore Structure Engineer, Airfield Civil Engineer also applied programmer for structural engineering.
2. Hydrological, Water Resources Management (WAREM) and Environmental Engineering: Flood Mapping Services Manager, Water Resources Project Manager, Storm Water Management Engineer, Senior Municipal Engineer, Drainage Engineer and Hydraulic Engineer.
3. Transportation and Traffic Engineering: Transportation Project Manager, Transportation Design Manager, Traffic Engineer and Transportation Engineer.
4. Geotechnical Engineering: Geotechnical Engineering Manager, Reclamation Engineer, Soil Improvement Engineer and Foundation Engineer.
5. Highway Engineering: Bridge Engineer, Highway Design Project Manager, Highway Project Engineer, Highway Construction Inspector.
6. Construction Management: Senior Project Manager, Lean/Process Engineer, Construction QC Manager and BIM Expert.

Curriculum

Civil Engineering Study Program at BINUS UNIVERSITY utilizes information technology as an integral part of teaching and learning process, particularly through MCL (Multi Channel Learning) using two delivery methods: Face to Face (F2F) in classrooms and Guided Self Learning Class (GSLC), which allow students to further their studies independently through all sources, whether from online reading or textbook. The Civil Engineering Study Program provides an integrated educational experience that combines basic and applied science theories with practical experience in laboratory experimentations, problems solving and civil engineering designs, as well as site visits.

The curriculum in the Civil Engineering Study Program provides students with a solid foundation in science, with introductory courses in all of the Civil Engineering technical areas. During their final year, students choose one of the following Civil Engineering emphasis areas:

- Structural Engineering
- Hydrological, WAREM and Environmental Engineering
- Transportation and Traffic Engineering
- Geotechnical Engineering
- Highway Engineering
- Construction Management and BIM

As seniors, students will receive a more intense design experience, learning about alternative solution, feasibility, economics, and detailed design descriptions. Moreover, students will receive additional knowledge from our Guest Lecturer in one subject (Case Study in Civil Engineering) using English media (Lecturer Presentation, handbook, homework, and exams). Students will also receive General Lecture from national and international professionals (members of Associations, Industries, or Constructions). In addition, students are required to take courses in professionalism and engineering ethics. These courses will culminate in major engineering design experiences to bridge the gap between educational and professional practice.

*) This course is delivered in English

**) Global Learning System Course

***) Entrepreneurship Embedded

****) Elective Subjects Infrastructure in CE: Students should choose two credits from each elective courses list.

Minor/Free Electives:

-) For 4th Semester: Students are required to choose minor program or free electives. For Free Electives, students are required to choose from the list of Free Electives in Appendix.

Foreign Language Courses:

Students will take foreign language courses according to BINUS University English proficiency test results. See foreign language courses appendix for the details. Students must pass with a minimum Grade of C.

Pre-thesis (2 SCU) & Thesis (4 SCU) can be taken in the 6th and/or 7th semester by the students who meet the requirements from the Study Program.

Appendix Foreign Language Courses

Foreign Language Courses		SCU
ENGL6253013	English for Frontrunners	0
ENGL6254013	English for Independent Users	0
ENGL6255013	English for Professionals	0
JAPN6190013	Basic Japanese Language	0
CHIN6163013	Basic Chinese Language	0

1. Students with Binus University English Proficiency Test score less than 437 are required to take English for Frontrunners and English for Independent Users.
2. Students with Binus University English Proficiency Test score less than 520 are required to take English for Independent Users and English for Professionals.
3. Students with Binus University English Proficiency Test score equal to or greater than 520 are required to take English for Professionals and choose Basic Japanese Language or Basic Chinese Language.
4. Students are required to pass the foreign language courses before they take enrichment.
5. Students can see the requirements to pass the foreign language courses at BINUSMAYA – Beelingua.

Description:

Student will take one of enrichment program tracks

Students are required to take the Internship track on the Enrichment Program I or Enrichment Program II with one of the following courses: CIVL6125013 - Technical Design in Civil Engineering or CIVL6126013 - Technical Project, which is a Capstone Project with minimum 8 credits.

Certified Internship Track

Code	Course Name	SCU	Total
Enrichment Program I			20
CIVL6077013	Industrial Experience	8	
CIVL6125013	Technical Design in Civil Engineering	8	
CIVL6116013	Professional Ethics and Communication	4	
Enrichment Program II			20
CIVL6081013	Project Experience	8	
CIVL6126013	Technical Project	8	
CIVL6083013	Leadership and Organization Behavior	4	

Certified Research Track

Code	Course Name	SCU	Total
Enrichment Program I/II			20
RSCH6223013	Research Experience	8	
RSCH6514013	Scientific Writing in Civil Engineering	8	
RSCH6181013	Global EES in Civil Engineering	4	

Certified Community Development Track

Code	Course Name	SCU	Total
Enrichment Program I/II			20
CMDV6123013	Community Outreach Project Implementation	8	
CMDV6294013	Community Outreach Project Design in Civil Engineering	8	
CMDV6097013	Employability and Entrepreneurial Skills in Civil Engineering	4	

Certified Study Abroad Track

Code	Course Name	SCU	Total
Enrichment Program I/II			20
GLOB6005013	Elective Course for Study Abroad 1	4	
GLOB6006013	Elective Course for Study Abroad 2	4
