

## Psychology

### Introduction

As long as human exist, the discipline of psychology can be applied in broad ranging aspects of life. Equipped with a good understanding of basic theories of psychology, individuals may be expected to work in variety of milieus. Traditional wise, psychology focuses 'only' on the study of normal and abnormal human's functioning as well as provides treatment to patients with mental and behavioral problems. Without leaving its traditional root, psychology nowadays has also touched on more practical areas, including the mental function of healthy individuals such as athletes, space explorers, stage performers, and employees, even the effect on interaction between human and computer. Department of Psychology offers an undergraduate (*Sarjana*) degree program. According to the existing National Regulation, the undergraduate psychology curriculum focus on the basic knowledge of human behavior and mental process alongside with the basic skill to design and conduct psychological research. Par excellence, at BINUS UNIVERSITY, students of Psychology will be strengthened by the understandings of urban communities' life and the use of technology to improve human performance, as the exclusive advantages to contributing in their working community.

### Vision

By 2020, being a respected educational institution in the field of applied psychology that produces graduates who mastered the substance of science of psychology and equipped with specific knowledge and skills in information and communication technology.

### Mission

The mission of Psychology Department is to contribute to the global community through the provision of world-class education by:

1. Educating students from diverse background with the fundamental skills, knowledge and practice of psychology that are supported by information and communication technology, to prepare them for the career world and/or continue advanced degrees in psychology or other disciplines.
2. Intensifying the research ethos and the societal involvement activities, which are directly linked to the national attributes and supported with the latest academic environment and materials.
3. Developing and acknowledging all talents for the purpose of positively contributing to the quality of life of industrial community, both nationally and globally.
4. Creating global leaders who distinguish themselves as professional in human intervention with psychological knowledge and skills in their work organizations and communities.
5. Conducting professional service and career development in psychology and its related area with an emphasis of application of knowledge and quality of life to the society.

## **Program Objective**

The objectives of the program are:

1. To provide students with knowledge of the systematic study of human behaviour and mental processes, and its systematic application.
2. To sharpen graduates' readiness for employment, graduate school or professional school, especially by equipping them with solid skills in the use of technology applications related to psychology.
3. To facilitate students in the development of their responsible behaviour, both ethically and socially, for professional and personal settings in a landscape that involves diversity.

## **Student Outcomes**

After completing the study, graduates are:

1. Able to use scientific reasoning to interpret psychological phenomena.
2. Able to be engaged in idea and psychological problem-solving innovative and integrative.
3. Able to interpret, design, and conduct psychological basic research.
4. Able to incorporate socio-cultural factors in psychological research.
5. Able to apply ethical guidelines to evaluate a research and psychological application.
6. Able to demonstrate effective writing skills for various purposes relating to the research and psychological application.
7. Able to demonstrate effective presentation skills to communicate the research and psychological application.
8. Able to apply psychological skills for career purposes.
9. Able to develop meaningful professional direction for life after graduation.
10. Able to develop and design non-clinical psychology measurements based on theory and psychological principles.

## **Prospective Career of the Graduates**

After finishing the study, the graduates have an ideal foundation to enter many career opportunities, such as in:

1. Training and Development Program Facilitator
2. Community Development Program Facilitator
3. Instructional Design Consultant
4. Assistant Psychologist
5. Human Resource Management
6. Consultant in various areas of psychology, such as education and human performance
7. Academic career
8. Counselor
9. Research Assistant
10. Psychological Test Administrator
11. Entrepreneur

## Curriculum

The curriculum of undergraduate degree of Psychology in BINUS UNIVERSITY is based on the National Curriculum and mutual agreement among the members of Indonesian Psychology Colloquium Forum. To cope with the global trend of the discipline of psychology, the Department of Psychology of BINUS UNIVERSITY also expands its curriculum by incorporating the ten areas of development of psychology as defined by the American Psychological Associations. To strengthen our students' skills and understanding of the application of psychological theories in working and social life, we designed a curriculum and academic environment that focuses on the human performance intervention. The intervention is focused on three streaming:

1. Educational Psychology  
This stream focuses on the application of psychological principles in the areas of education and designing of instructional design
2. Community Psychology  
This stream focuses on the application of psychological principles in designing social intervention program to improve communities' quality of life
3. Industrial & Organizational Psychology  
This stream focuses on the application of psychological principles in designing training and development program to improve team and individual performance.
