

Doctor of Research in Management (DRM)

Introduction

The Doctor of Research in Management (DRM) is a doctoral level program in management which emphasizes the development of knowledge in management by combining the elements of science, best practices, and use of Information and Communication Technology (ICT). It offers concentrations in Sustainability and Growth Strategy, Entrepreneurship and Innovation, Marketing Science and Analytics, Business Information Systems, Finance, and Human Resources Management. The Study Program is designed to be accomplished in 6 (six) semesters, which consists of 46 SKS including dissertation. Each student draws on the faculty's diverse expertise and varied interests to develop high quality research uniquely suited to his or her interests. The Study Program encourages students to gain research experience by working closely with faculty on a variety of industry projects and on alignment of research roadmaps.

Vision

To be an internationally recognized business school in the continuous pursuit of innovation in education.

Mission

We are committed to implement innovative mindset in business education and research to develop professionals who can meet the challenges of industries and society.

Learning Goals

By the completion of our Study Program:

1. Management Concept

Each student should be able to master the latest concepts in management and to develop new knowledge in related management functions in organization.

2. Multidisciplinary Research

Each student should be able to master the research methodology to study the phenomenon in management through multidisciplinary perspectives.

3. ICT Leverage

Each student should be able to utilize ICT to support high-quality research.

Prospective Career of the Graduates

The graduates of DRM could take up one or combination of the following roles:

1. As industry consultant, actively conducting high profile consulting projects with leading companies and producing copyrighted frameworks and or white papers.
