## Information Systems

## Introduction

The need for Information Technology (IT) in the business industry has shifted into an environment that is more outward looking in order to compete in the free market. Information Technology is closely related to Information Systems (IS) in their joint support of the organization. They facilitate excellent procedures of the whole organization and strengthen its competitiveness.

As a discipline, Information systems has been making positive contributions to wide range of organizations, especially in this era of digital information where information can be accessed and distributed easily. Information systems helps organization in managing data as an asset, either collected or presented by information systems, which are possible to be implemented for problem solving and management decisions making.

The Information Systems Study Program was founded in response to the progressive demand for skilled human resources in the field of information systems. The scope of study in the Program includes Information Systems: information systems development including information systems analysis, design and implementation (programming), management information systems, business process analysis and design, enterprise systems, database analysis and design, and information system project management.

## Vision

A study program of choice that excels in providing high-level Information system education is specialized in business-IT, recognized internationally, and champions innovation. We produce graduates with international qualifications.

## Mission

The mission of Information System Department is to contribute to the global community through the provision of world-class education by:

1. Nurturing students and lecturers with creative and value-adding talents in Information System by creating a suitable environment;
2. Educating students in information systems, covering knowledge and skills in analyzing, designing and implementing information systems for improving business processes and to be able to create an innovative and valuable information system solution, through intensive learning process, research activities and collaboration with global industries;
3. Providing integrated knowledge to pursue further studies and create outstanding professionals, entrepreneurs, and leaders for a global community;
4. Providing professional services in Information System with an emphasis on the application of knowledge to society;
5. Improving the quality of life of Indonesians and the international community through leveraging Information system solutions.

## Program Objective

The objectives of the program are:

1. To provide students with a solid foundation of system development skills and knowledge that they will need as a system analyst;
2. To prepare students with skills and in depth knowledge of information systems related to business intelligence, e-business and strategic information systems;
3. To provide students with the ability to use applied business knowledge for specific industry purposes.

## Student Outcomes

After completing the study, graduates are:

1. Able to identify and formulate the root cause of information system performance through data and information analysis on business process;
2. Able to identify the database needs to build information system;
3. Able to design, create and manipulate and implement computer-based information systems through the study of information systems to develop a strategic plan for organizations;
4. Able to design, create, manipulate and implement computer based information system for new business model and process;
5. Able to communicate alternative solutions development and implementation of information systems based on theory either independently or in groups in writing, designing, and prototyping;
6. Able to manage, integrate and add value to the results of data analysis to generate quality information for organization needs;
7. Able to identify needs, design and implement system and ICT to build a web based business application for the organization;
8. Able to evaluate business process integration and corporate strategy for designing an integrated information system in an organization.

## Prospective Career of the Graduates

Graduates will have the necessary skills to work as:

1. System Analyst
2. Business Analyst
3. Business Process Analyst
4. Digital Business Specialist
5. Enterprise Resource Planning (ERP) Specialist
6. IT Architect
7. IT Consultant
8. System Designer
9. Database Administrator
10. Database Analyst
11. Data Scientist
12. User Experience Designer
13. IT/IS Consultant
14. Application Developer
15. Web-Developer/Web-Designer

## Curriculum

The Information Systems Study Program curriculum is designed by refering to the curriculum recommended by Association for Computing Machinery (ACM) and Association for Information Systems (AIS) for model curriculum and guidelines for undergraduate degree program in Information Systems. In addition, the curriculum has been influenced by foreign universities with the reputation of qualified Information Systems Study Programs.
The curriculum for the next four years, will prominently consists of:

1. Information Systems, Business Process and Enterprise Systems.
2. Database, Information and Knowledge Management.
3. Information Systems Analysis and Design.
4. Programming, Testing, and Implementation.
5. Financial Accounting, Business Statistics, Research Methodology.
6. Concentration Subject: Strategic Information System, Business Intelligence, Digital Business, Applied Database and Applied Enterprise Resource Planning (ERP).

*) This course is delivered in English
**) Global Learning System Course
***) Entrepreneurship Embedded
****) Elective Courses of Applied ERP Stream: Students in Applied ERP Stream will choose 2 courses (ISYS6443 and ISYS6444; or ISYS6445 and ISYS6446 ) from elective course list on $5^{\text {th }}$ semester

## English University Courses:

-) For $1^{\text {st }}$ Semester: English University Courses I, student with score BINUS UNIVERSITY English Proficiency Test less than 500 will take English in Focus, and student with score test greater than or equal to 500 will take English for Business Presentation
-) For $2^{\text {nd }}$ Semester: English University Courses II, student with score BINUS UNIVERSITY English Proficiency Test less than 500 will take English Savvy, and student with score test greater than or equal to 500 will take English for Written Business Communication

## Enrichment Program I (6 ${ }^{\text {th }}$ Semester) \& Enrichment Program II (7 ${ }^{\text {th }}$ Semester):

-) Student will take one of enrichment program tracks (off campus). See enrichment appendix for the tracks detail.
