

Business Management

Introduction

In facing global competition in the field of business services in the future and encouraging the growth of entrepreneurship in this venture, it is necessary to provide graduates to fill in the growing demands of professionals in global business service fields with a highly competency individual and the ability and a good understanding of ICT as a business enabler. The implementation of the multilateral trade agreement and the increasing of global competitive service business encourage more companies to expand abroad. It will increase demand for professionals in the field of production and services, including the personnel who can adapt, and innovate, in facing the turmoil and dynamic market. The business management program carefully prepares a learning curriculum to serve the challenges above. The program equips students with the knowledge updates from the industry expert, business practices, and soft-skills training and experiences that enable them to survive and expand their capacity. The learning process is carried out through a variety of teaching activities including utilising case study approaches, simulations, and team projects.

Vision

To be an internationally recognized business school in the continuous pursuit of innovation in education.

Mission

We are committed to implement innovative mindset in business education and research to develop professionals who can meet the challenges of industries and society.

Learning Goals

By the completion of our program

1. Management Concept

Each student should be able to comprehend business and management concept.

2. Creative Thinking and Entrepreneurial Skills

Each student should be able to work innovatively by applying their adept thinking, entrepreneurial, and ICT skills.

3. Global Mindset

Each student should be able to perform global mindset in exercising business concept.

4. Ethics

Each student should be able to apply ethical and professional values.

Prospective Career of the Graduates

Business management program graduates will have management skills in business services such as banking, consulting, e-commerce, start-up business and as a manager in the company (including the essential functions in the field of management) as well as an entrepreneur who are able to utilize information communication technology to grab business potential and sustain its competitive edges. The graduates are also ready to face the challenges of the dynamic global business services.

Curriculum

Business management curriculum has been designed to meet the conditions of today's global business services and readiness to prepare graduate students to apply their knowledge in the industry accordingly. The curriculum is based on both international and national curriculum that includes art and science of business management knowledge and the skills and attitude to support core competencies. Curriculum content continually adapts to the technological knowledge of the utilisation of ICT-based business service management globally. Therefore, teaching materials are enhanced to meet the stakeholders and to create and manage business management excellence across the global business services.
