

Computer Science

Introduction

The Computer Science Program teaches basic knowledge of computer science include algorithms, methods of application development and database technology with knowledge and understanding of mathematical concepts. Curriculum designed based on international curricula ACM (Association for Computing Machinery) and input from business and industry. The graduate expected from this program can compete internationally and provide creative and innovative solutions in place of work.

Vision

A distance learning program of choice in Computer Science which focuses on developing creative software solutions for industry, is recognized internationally, champions innovation and delivers graduates with international qualifications.

Mission

The mission of Computer Science Study Program is to contribute to the global community through the provision of world-class education by:

1. Educating students with fundamental and advance knowledge, skill and practice in software development, specialized in database technology, intelligence system, networking or multimedia and game development by providing an excellent learning environment and promoting research and collaboration with global industry .
2. Providing IT professional services with emphasis in application of knowledge in terms of society development.
3. Sharing application of knowledge related to computer science for Indonesian and international community quality of life improvement.
4. Promoting students & lecturers to be creative and value-adding talents in computer science by creating suitable environment in order to be able to compete in international level.
5. Preparing students for becoming smart and good ICT professionals, leaders and entrepreneurs in global market or for continuing in advanced studies.

Program Objective

The objectives of the program:

1. To provide students with a solid foundation of mathematical, algorithm principles, computer science knowledge and ethical that will be needed in IT practice.
2. To provide students with skills to apply design and development principles in the construction of software system applied in database technology, intelligence system, networking and multimedia development.
3. To prepare students with abilities to keep up -to-date with the latest Information Technology trends, developments and industries.
4. To provide quality education through multidisciplinary education and teaching by utilizing the best information and communication technology with a variety of distance learning methods.
5. To prepare students with abilities in problem solving and good communication skills to be able to work as an individual or in a team in an IT environment.

Student Outcomes

After completing the study, graduates are:

1. Able to create software application design with the implementation of database system principal design to solve structured and semi-structured data
2. Able to design software application solution based on problem analysis which can be solved with structured approach in informatics area.
3. Able to assess technology trend in informatics area to deliver alternative solution of software development.
4. Able to think critically through scientific rules (Critical Thinking and Scientific approach) based on basic mathematical theory and computer science.
5. Able to design problem solving strategies using a computational approach.
6. Proficient at using techniques and computing devices (Technique and tools for computing practice) that are relevant in studying the area of computer science to increase productivity.
7. Able to demonstrate skills in the development and application of informatic concepts.
8. Able to collaborate in a multidisciplinary manner to resolve various contexts of the problems.

Prospective Career of the Graduates

1. Software Engineer/Developer
2. System Analyst/Developer
3. Web Engineer/Developer
4. Computer Network Specialist
5. Database Specialist
6. IT Support/Consultant
7. Lecturer/Trainer

Curriculum

The curriculum has been developed in line with the National curriculum. Also, the local content has been developed in line with the Computer Science Curriculum standard of ACM (Association for Computing Machinery), local and foreign universities, and market trend. Therefore, the graduates are expected to be able to face the competition at both national and international level.

Course Structure

Sem	Code	Course Name	SCU	Total
1	COMP6599	Algorithm and Programming	6	16
	MATH6077	Discrete Mathematics	4	
	COMP6127	Algorithm Design and Analysis	4	
	CHAR6019	Character Building: Pancasila	2	
2	LANG6031	Indonesian	2	14
	COMP6601	Data Structures	6	
	ISYS6508	Database System	6	

Sem	Code	Course Name	SCU	Total
3	COMP6307	Human and Computer Interaction	4	16
	COMP6600	Operating System	4	
	COMP6124	Program Design Methods	4	
	CPEN6214	Computer Networks	4	
4	MATH6132	Calculus and Linear Algebra	6	14
	CHAR6021	Character Building: Agama	2	
	COMP6199	Software Engineering	6	
5	ENGL6163	English Professional	4	16
	COMP6275	Artificial Intelligence	4	
	ISYS6523	Data Mining	4	
	ENTR6081	Entrepreneurship	4	
6	COMP6276	Compilation Techniques	4	14
	COMP6284	Code Reengineering	4	
	ISYS6362	Database Design	4	
	COMP6334	Probability and Statistics	2	
7	COMP6148	Programming Language Concepts	2	16
	COMP6618	Object Oriented Programming	6	
	COMP6619	Advanced Object Oriented Programming	6	
	CHAR6020	Character Building: Kewarganegaraan	2	
8	Minor Program		16	16
9	COMP6620	Pattern Software Design	4	16
	COMP6621	Web Programming	4	
	ISYS6332	Data Warehouse	4	
	COMP6622	Object-Oriented Database	4	
10	RSCH6003	Research Methodology	2	8
	COMP6288	Thesis	6	
			Total Credit 146 SCU	

Minor Program (6th Semester):

-) Student will take one of minor program track. See minor scheme for the tracks detail.

Minor Track Scheme

Track	1 st Period				2 nd Period			
	BM	AF	IS	CS	BM	AF	IS	CS
1.	V	-	-	-	V	-	-	-
2.	-	V	-	-	-	V	-	-

Notes:

BM : Business Management Minor Program
 AF : Accounting and Finance Minor Program
 IS : Information Systems Minor Program
 CS : Computer Science Minor Program

Notes:

Student will take one of Minor Program tracks

Minor Program Track

Code	Course Name	SCU	Total
Business Management			
Minor Program 1st Period			8
COMM6457	Business Communication	4	
MGMT6320	Human Resource Management	4	
Minor Program 2nd Period			8
ENTR6488	Business Plan	4	
MGMT6321	Application of Change Management	4	
Accounting			
Minor Program 1st Period			8
TAXN6042	Introduction to Taxation	4	
ACCT6338	Risk and Internal Control	4	
Minor Program 2nd Period			8
TAXN6043	Corporate Taxation	4	
ACCT6339	Management Audit	4	

Students should pass all of these quality controlled courses as listed below:

No	Course Code	Course Name	Minimal Grade
1	CHAR6019	Character Building: Pancasila	B
2	ENTR6081	Entrepreneurship	C
3	COMP6599	Algorithm and Programming	C
4	COMP6601	Data Structures	C
5	COMP6124	Program Design Methods	C
6	COMP6199	Software Engineering	C
7	ISYS6362	Database Design	C
8	COMP6618	Object Oriented Programming	C
