

Information Systems Accounting and Auditing

Introduction

Information Systems / Information Technology (IS/IT) is essential to manage transactions, information, and knowledge necessary to initiate and sustain economic and social activities. These activities increasingly rely on globally cooperating entities to be successful. In many organizations, IS/IT is fundamental to support, sustain and grow the business. While many organizations recognize the potential benefits that technology can yield, the successful ones also understand and manage the risks associated with implementing new technologies. Another growing industry supported by technology is Financial, in a form of application, Financial Technology penetration broadly spread to the society. To understand more about Financial Technology environment, the knowledge about finance management, policy, financial services in certain area are some of the concerns to be prepared.

Therefore, in many organizations especially in IT-dependent company such as banking, telecommunication and oil and gas as internal Information System (IS) Auditor, the demand of Information System Auditor is growing every year. Instead, by also understanding about Financial Technology environment, the information systems designer is becoming the most wanted profession in this digitalize world. Related with this opportunity, BINUS UNIVERSITY offering Information Systems Accounting & Auditing Program to fulfill the demand of IS Auditor and Financial Technology Specialist to prepare knowledgeable fresh graduate in that area.

Vision

A world class study program that excels in providing high-level Information system education is specialized in business-IT, recognized internationally, and champions innovation.

Mission

The mission of Information Systems Accounting & Auditing are to:

1. Nurturing students and lecturers with creative and value-adding talents in Information System by creating a suitable environment;
2. Educating students in information systems, covering knowledge and skills in analyzing, designing and implementing information systems for improving business processes and to be able to create an innovative and valuable information system solution, through intensive learning process, research activities and collaboration with global industries;
3. Providing integrated knowledge to pursue further studies and create outstanding professionals, entrepreneurs, and leaders for a global community;
4. Providing professional services in Information System with an emphasis on the application of knowledge to society;
5. Fostering the quality of life of Indonesians and the international community through leveraging Information system solutions.

Program Objective

The objectives of the program are to:

1. Equip students with the expertise and solid basic knowledge about system development that will be needed as a professional in the field of information systems, as well as increasing the skills and knowledge of educators in the information systems field;
2. Preparing students with proficiency and in-depth knowledge of innovative information systems related to IT-Business Innovation;

3. Equip students with the ability to use knowledge of applied business applications for specific industrial purposes;
4. Equip the community with expertise and knowledge through the use of information system solutions;
5. Provide education to the public regarding the use and application of information systems.

Student Outcomes

After completing the study, graduates are:

1. Able to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions;
2. Able to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline;
3. Able to communicate effectively in a variety of professional contexts;
4. Able to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles;
5. Able to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline;
6. Able to Support the delivery, use, and management of information systems within an information systems environment.

Prospective Career of the Graduates

After graduating from Information Systems Accounting and Auditing Program, students can have career as:

1. Internal IS/IT Auditor,
2. IS Security Consultant,
3. IS Risk Management and Assurance Advisor,
4. Forensic Analyst,
5. External IS/IT Auditor,
6. Systems Analyst,
7. Systems Designer,
8. Blockchain Developer,
9. Financial or Business Analysts,
10. Compliance Expert,
11. Product Manager,
12. Cybersecurity Analyst,
13. Business Process Analyst,
14. Business Start Up Leader.

Curriculum

Information Systems Accounting & Auditing curriculum has developed according to ACM–Information Systems Curriculum combined with ISACA Model Curriculum for IS Audit and Control. According to ISACA Model Curriculum for IS audit and control, the topics covered by model area consist of five content domains which are the Information Security Governance, Information Risk Management, Information Security Program Development, Information Security Program Management, Information Management and Response Domain.

TOTAL CREDITS 146 Credits					

*) This course is delivered in English

**) Global Learning System Course

***) Entrepreneurship Embedded

-) For Free Electives, students are required to choose from the list of Free Electives in Appendix.

English University Courses:

-) For 1st Semester: English University Courses I, students with Binus University English Proficiency Test score less than 500 will take English in Focus, and student with test score greater than or equal to 500 will take English for Business Presentation.

-) For 2nd Semester: English University Courses II, students with Binus University English Proficiency Test score less than 500 will take English Savvy, and students with test score greater than or equal to 500 will take English for Written Business Communication.

-) Students should pass English Savvy with a minimum Grade is C

Pre-thesis (2 SCU) & Thesis (4 SCU) can be taken in the 6th and/or 7th semester by the students who meet the requirements from the program.

Appendix: Free Electives (5th Semester)

Description:

Student will take one of enrichment program tracks

Students who failed in Enrichment Program I can retake with the same track or change into another track. As for Enrichment Program II, student who failed with Certified Internship, Certified Research, Certified Community Development, and Certified Study Abroad track on Enrichment Program II, can retake with the same track or change into another track. However students who take **Certified Entrepreneurship** track on Enrichment Program II, should **retake with another track**

Certified Internship Track

Code	Course Name	SCU	Total
Enrichment Program I			20
