

Digital Business

Introduction

The Digital Business Program from Binus Business School Undergraduate Program (BBSUP) is dedicated to providing students with the highest standard of digital business education with a focus on utilization of technology to develop business solutions. The program is designed to prepare the students to be ready to become capable practitioners working for local and multinational corporations or to become creative and innovative entrepreneurs. To support this objective, the digital business program provides the students with various corporate-world-related activities, aiming to enhance their abilities and jump-start the students' industrial networks. The activities include internship programs in national and multinational corporations, guest lecture sessions from various industry practitioners and professionals, and applied-research theses where students are required to provide professional consulting services for real companies with real business management and marketing-related problems. The program emphasizes the understanding and mastery of a combination of technology, business and finance key concepts, tools, and technology required by future professionals and entrepreneurs. The content of the program is designed to equip students with basic scientific business paradigms, updated theoretical frameworks, applied skills, and familiarity with contemporary technology and finance to support their ventures as future leaders in business. The Digital Business program maintains continuous and fruitful cooperation with many first-class companies in Indonesia to build a strongly linked network. The aim is to provide wide opportunities for graduate students after they graduate to have an opportunity to work in one of the most reputable companies in Indonesia. The curriculum in the BBSUP has been benchmarked to renowned universities around the world. This curriculum is then combined with the Indonesian National Curriculum and several core values developed by BINUS.

Vision

Becoming a world-class business school, fostering and empowering the society in serving and building the nation.

Mission

1. Educating BINUSIANS to develop exemplary characters through holistic approach.
2. Resolving business and entrepreneurship issues with meaningful and relevant research
3. Fostering BINUSIANS through self-enrichment.
4. Empowering BINUSIANS to continuously improve business community

Program Objective

The objectives of the program are:

1. (POBJ-1) Provide students to build startups based on digital business with sustainable business principles and digital technology and to create innovation.
2. (POBJ-2) Providing student with ability to analyze digital technology needs and be able to apply digital technology as the main resource in digital business in solving business problems so that they can become professionals in the digital business field.
3. (POBJ-3) Provide students with knowledge and expertise in management, economics, accounting, systems and information technology that supports the creation of innovative digital businesses.
4. (POBJ-4) Nurture students to become creative and innovative professionals with a digital business mindset in organizations, communities and global contexts.

Student Outcomes

After completing the study, graduates are:

1. (SO 1) *Able to critically analyze issues related to public policy, community and social relations for changes in self-character and better social transformation of society from time to time.*
2. (SO2) *Able to practice language proficiency in written and/or oral form for a variety of purposes.*

Prospective Career of the Graduates

After finishing the program, the graduate of Digital Business Program could follow a career as:

1. Digital Entrepreneur
2. Consultant
3. Analyst
4. Researcher
5. FinTech Specialist

Curriculum

The curriculum of the Digital Business Program Program has been developed in line with the National Curriculum. Also, the local content has been developed in line with the Digital Business Program Curriculum standard so that the graduates of the Digital Business Program are expected to be able to face competition at both a national and international level.
