

Industrial Engineering

Introduction

Engineering plays a vital role in economic growth and nation development. Engineering plays a major role in designing a safe, efficient, and sustainable systems while also considering the economic and social impact of their designs. Industrial Engineering undergraduate program (S1) BINUS at Semarang Campus provides an updated Industrial & system engineering knowledge and skills. Through this program, student engages in the study of how to describe, evaluate, design, modify, control, and improve the performance of integrated systems. The program emphasizes the application of engineering fundamentals with a balanced treatment of theory, design, and experience. The curriculum provides with the principles and methods of engineering analysis and design and blend in fundamental topics in mathematics, physical and engineering sciences knowledge. Students will also learn the topics of computer applications, management and social sciences, such as programming, data analysis, financial management, human resources management, economy, cost accounting, and industrial psychology.

The program has been BAN-PT accredited since 2022. The main focus of the program is optimizing the performance of systems in an effective, efficient, and productive way within the framework of the industrial digital transformation. The object designed is not only the tangible objects such as products or building, but also an integrated system consisting of people, machines, materials, energy, information system and how the implementation in industry 4.0 era.

Vision

To become a reputable and an innovative Industrial Engineering study program through the integration of updated technology to foster and empower the nation's society

Mission

The mission of Industrial Engineering Department is to contribute to the development of Indonesian community through the provision education by:

- Providing world-class education experiences in the field of Industrial system engineering
- Providing high-impact and innovative research and professional services by utilizing updated knowledge and technologies.
- Organizing community services activities to foster a society that is relevant to Industrial System Engineering or related disciplines.
- Empowering the society to contribute to improving the quality of life of the Indonesian communities

Program Objective

1. (PO 1) Utilize appropriate engineering design methods and tools that are principal to work beneficially within their professions & communities
2. (PO 2) Possess effective teamwork and leadership skills and commit to the standard of profession and ethical practice.
3. (PO 3) Continuously develop oneself to meet the evolving demands and increasing responsibilities of a successful career, to benefit the organization and society.

Student Outcomes (or Learning Goals only for BBS Program)

1. (SO 1) Able to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. (SO 2) Able to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. (SO 3) Able to communicate effectively with a range of audiences
4. (SO 4) Able to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. (SO 5) Able to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. (SO 6) Able to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. (SO 7) Able to acquire and apply new knowledge as needed, using appropriate learning strategies

Prospective Career of the Graduates

Industrial engineers are employed in BUMN, BUMS, academic sector, private company in manufacturing, supply chain and service industries. The type of works industrial engineers are doing are but not limited to:

- Supply Chain Engineer
- Production Engineer
- Operation Engineer
- Quality Assurance Engineer
- Product Analyst/Specialist
- System Analyst
- Service System Engineer
- Safety & Health Engineer
- Human Resources Analyst
- Education: Teaching and Research, Consulting.

Curriculum

The curriculum of the Industrial Engineering Program BINUS @ Semarang has been developed in line with the National Curriculum (BAN-PT), and with the international engineering education standard and market trends. All students obtain 146 credit, 120 student activity transcript point and 30 hours community services regarding the hard skill and soft skill development. There are 30 credit hours of basic science course that delivered in first until 3rd semester along with Fundamental Engineering course, Industrial Engineering Core Courses and Character Building Group courses: Pancasila, Kewarganegaraan, and Agama (Religion). The Curriculum provides a flexibility learning process and student studies until 4th semester at Semarang Campus and has a mobility opportunity to other BINUS campus in 5th semester. In 5th semester, students freely to choose 10 credit hours of certain topics in breadth and depth between streaming in Semarang Campus: Industrial Digital Transformation and three Streaming in Jakarta Campus: Supply Chain Engineering, Service Systems Engineering, and Manufacturing Systems. In the sixth and seventh semesters students have the opportunity to enrich their learning with various partners of Bina Nusantara University for one year through Enrichment Program. The Enrichment

Program offers seven optional tracks: Internship, Entrepreneurship, Research, Community Development, Fast Track, Study Abroad, and Independent study. On the last semester every student takes a thesis as final course and will be guided by Faculty Member of Industrial Engineering BINUS Semarang Campus.

*) This course is delivered in English

**) Global Learning System Course

For 5th Semester:

- 1) Conducted for student mobility program in BINUS @Greater Jakarta
- 2) Students choose 1 course (2 credits) of elective track course based on preferred track.

For Free Electives, students are required to choose from the list of Free Electives in Appendix

Streaming/Minor/Free Electives:

-) For 5th Semester: Students are required to choose one of the streamings/ minor program/free electives/ cross streaming.

-) **AOL** – Assurance of Learning Process System

Foreign Language Courses:

Students will take foreign language courses according to BINUS University English proficiency test results. See foreign language courses appendix for the details. Students must pass with a minimum Grade of C.

Pre-thesis (2 SCU) & Thesis (4 SCU) can be taken in the 6th and/or 7th semester by the students who meet the requirements from the Study Program/Program

Appendix Foreign Language Courses

Foreign language courses are personalized courses that can be taken by the students according to their own pace from semester 1 until semester 4 or before they take enrichment. The courses are available at BINUSMAYA – Beelingua.

The following are the provisions of the courses that must be taken by students:

Course	SCU
Foreign Language Courses	
ENGL6264054 English for Frontrunners	0
ENGL6265054 English for Independent Users	0
ENGL6266054 English for Professionals	0
JAPN6207054 Basic Japanese Language*	0
CHIN6184054 Basic Chinese Language*	0

1. Students with Binus University English Proficiency Test score less than 437 are required to take English for Frontrunners and English for Independent Users.
2. Students with Binus University English Proficiency Test score less than 520 are required to take English for Independent Users and English for Professionals.
3. Students with Binus University English Proficiency Test score equal to or greater than 520 are required to take English for Professionals. Additionally, students may choose to take either Basic Japanese Language or Basic Chinese Language.
4. Students are required to pass the foreign language courses before they take enrichment.
5. Students can see the requirements to pass the foreign language courses at BINUSMAYA – Beelingua.

Minor Scheme

Minor Program	Semester 5
Sustainable Development	v
Interactive & Users Experience Design	v
Data Analytics	v
Robotic Process Automation	v
Event Business and Entertainment	v
Creative Digital Storytelling	v
Digital Transformation	v
Virtual Services Experience	v
Metaverse in Business	v
Content Creation	v

The minor programs can change anytime based on the trends of knowledge and industry each year. Students will receive information about the updated minor programs during the registration period.

1. Minor: Sustainable Development

Minor Fundamental Courses

Course	SCU
ISYE6154011 Sustainable Design and Manufacture	4
CPEN6217010 Digital for Sustainable Development	4
ARCH6119014 Introduction to Sustainable Development	2
Total SCU	10

2. Minor: Interactive & Users Experience Design

Minor Fundamental Courses

Course	SCU
ISYS6553003 User-Centered Research and Evaluation	4
PSYC6176027 Psychology and User Experience	4
DSIN6003007 Fundamental of Interface Design	2
Total SCU	10

3. Minor: Data Analytics

Minor Fundamental Courses

Course	SCU
ISYS6680003 Introduction to Data Analytics	2
ISYS6681003 Data Management & Descriptive Analytics	4
STAT6198049 Statistical for Decision Making	4
Total SCU	10

4. Minor: Robotic Process Automation

Minor Fundamental Courses

Course	SCU
COMP6857001 Basic Programming for Automation	2
COMP6858001 RPA Concept & Design	2
ISYS6684003 RPA Developer Fundamental	4
ISYS6687003 Business Process Improvement	2
Total SCU	10

5. Minor Program: Event Business and Entertainment

Fundamental Courses

Course	SCU
HTMN6151021 Event Marketing Management	2
HTMN6152021 Catering Management	4
TRSM6232022 MICE (Meeting, Incentive, Convention, Exhibition) Management	4
Total SCU	10

6. Minor Program: Creative Digital Storytelling

Fundamental Courses

Course	SCU
ENGL6274024 Approaches in Multimodal Storytelling	2
DSIN6033007 Visual Storytelling	2
ENGL6275024 Storytelling for Business	2
FILM6118009 Script Development & Pitching	4
Total SCU	10

7. Minor Program: Digital Transformation

Fundamental Courses

Course	SCU
ISYS6559003 Business Models and Technology Innovation	4
ISYS6557003 Business Data Management	4
MGMT6484005 Digital Strategy	2
Total SCU	10

8. Minor Program: Virtual Services Experience

Fundamental Courses

Course	SCU
ISYS6561003 Fundamental of Virtual Services	2
ACCT6350020 Virtual Financial Services	4
MGMT6354005 Virtual Operation and Supply Chain	4
Total SCU	10

9. Minor Program: Metaverse in Business**Fundamental Courses**

Course		SCU
ISYS6777052	Business Model	2
COMP6889051	Virtual Reality	4
COMP6890051	Augmented reality	4
Total SCU		10

10. Minor Program: Content Creation**Fundamental Courses**

Course		SCU
FILM6105009	Filmmaking Fundamental	4
MKTG6336055	Content Marketing Analytics	4
DSIN6042053	Photography for Creators	2
Total SCU		10
