

Visual Communication Design

Introduction

Visual Communication Design Study Program prepares students to become professional designers who are ready to compete in the global world. Students are equipped with analytical skills, creative work production skills, communication skills and technology development skills.

In this Study Program students learn the principles and development of design in stages. Students will study the basic theory and history of art and design, the application of design in case studies, design research and the process of creating works involving stakeholders.

Vision

Excellent as a Visual Communication Design Study Program by delivering designers who are ready to challenge the global world with East Java's and East Indonesia's local values and maximize information technology.

Mission

The missions of Visual Communication Design are to:

1. Educate students to be able to provide visual communication solutions based on creative research, local & global knowledge, and information technology, and to be able to articulate East Java's and Eastern Indonesia's local values to compete at the global level.
2. Improve the quality of life of Indonesian and the international community through good design.
3. Design creative products and provide professional services in the field of visual communication design by emphasizing the application of knowledge to society.
4. Educate students with a strong sense of ethics and entrepreneurship as a contribution to the general public.
5. Collaborate with several related institutions both at local and abroad to maintain the development of the knowledge that being taught

Program Objective

The objectives of the program are:

1. As a source of graduates who become components of nation-building and have local and global knowledge from creative visual communication.
2. Carrying history and local values, technology, and entrepreneurship in hope to be able to work and be accepted by the creative industry, society, and the Indonesian nation through the application of visual communication design science by utilizing communication and information technology.

Student Outcomes

After completing the study, graduate are:

1. able to create printed and digital visual communication design work that has added value and aesthetics, to overcome identity problems, mass communication, and competition problems by stakeholders;

2. able to conduct research and idea exploration to set the objectives, communication target, and visual communication design prototype solutions that can overcome identity problems, mass communication, and considering the ethical, history, cultural, social consequences and regulations;
3. able to analyze level of material utilization efficiency and time in the production process of each selected alternative solution prototype of visual communication design, without changing the essence and aesthetic design;
4. able to communicate visual communication design prototype alternative solutions independently or groups in verbal form, graphical, written, and communicative models with analog or digital techniques by selected appropriate communication rules;
5. able to build a business in visual communication field;
6. Able to design visual communication design artwork by focusing on cultural values and local indigenous as the identity of national citizen's works by combining contemporary elements;
7. Able to produce illustration design based on the market's needs and the proper illustration techniques;
8. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

Prospective Career of the Graduates

After graduating from the Visual Communication Design Study Program, students have broad opportunities to become professional designers. Students can be involved in the world of entertainment, tourism, government, research and development, SME, commerce, digital technology development, creative content development, and becoming an entrepreneur.

Future career paths:

Curriculum

There are four main categories in Visual Communication Design Study Program:

1. Fundamental Design (Semester 1-3)

Students learn the basic principles of design, color theory, photography, typography, the history of art and design as well as an introduction to the technology used in the world of design. Students will also learn the basic application of design principles to case studies in society. With this case study, students are expected to be able to apply the theory obtained in the classroom to the general public.

2. Design Expertises (Semester 4-5)

Students have the opportunity to choose a specific skill set in Visual Communication Design. Students can choose Illustration Stream to improve their skills in visual production, drawing and creating Intellectual Property. Students can also choose Streaming New Media to improve their graphic design skills and visual abilities. Creative Advertising Streams can be selected by students to improve their visual communication skills, advertising and visual persuasion techniques. Students can also improve their skills in the fields of motion graphics, character design, moving images by

choosing Streaming Animation. Students also have the opportunity to enrich their knowledge of the non-design world through the Free SMO and Minor Programs.

3. Enrichment Program (Semester 6-7)

Enrichment program of Visual Communication Design aims to gain student's soft skills regarding teamwork, leadership, and professional attitudes, as well as their hard skills in implementing the knowledge they acquired from classroom. In the 6th semester, students will have a four months internship experience in the advertising industry or other creative industries. Meanwhile, in the 7th semester, students will have more opportunities (five different tracks), including: internship for industry experience, community development in social issues, entrepreneurship to build start-up business, research, and study abroad to enrich cultural experience.

4. Final Project (Semester 8)

In the Final Project, students have the final opportunity to sharpen their knowledge and work optimally by producing the best work according to the different abilities of each student.
