

Biotechnology

Introduction

The Biotechnology Study Program at BINUS University is aimed at those willing to learn about the principles and applications of modern biotechnology to gain the value of bioresources, develop innovative bio-based products, and solve problems related to bioresource management. **Biotechnology** is an applied science that combines various branches of science to study the use of living things and the products of living things in the production process to produce goods and services. **Modern biotechnology** includes genetic engineering tools, the methods for modifying the biological function of an organism by adding genes from other organisms or by the organism itself. The tools can be used to **produce new traits of an organism**.

The study program emphasizes the application of biotechnology in a wide industrial scope, including agriculture, marine, new material, nutraceutical, and pharmaceutical fields. The students will be enriched with information technology to support the knowledge of bioinformatics. The students also will learn about entrepreneurship to prepare future graduates to be ready to work in national and multinational companies and be able to build biotechnology-based businesses.

The facilities are well-equipped in the areas of biotechnology and bioinformatics. The laboratories are available for students to use during their studies, projects, and competitions, such as biology, chemistry, DNA technology, and computer laboratories. The study materials are provided in the Learning Management System (LMS) based on a website and mobile application. Besides that, the campus area also provides creative classes, a library, study rooms, and a gymnasium.

Vision

An innovative biotechnology study program with world-class standard and enriched with information technology for improving bioresources to advance good health and well-being, fostering and empowering the society.

Mission

The missions of Biotechnology Study Program are:

1. Providing a solid educational experience through the diffusion and integration of Biotechnology knowledge.
2. Educating students with the fundamental skills, knowledge, and practice of Biotechnology with IT-enriched knowledge in order to prepare graduates to be a professional in global communities and prepare them to pursue advanced degrees in Biotechnology or related disciplines.
3. Recognizing, nurturing, and acknowledging all talents that positively contribute to improving the body of knowledge in biotechnology in Indonesia and international communities.
4. Conducting research, community development, and professional services focusing on green and blue biotechnology contributes to enhancing good health and well-being, improving the quality of life needed to build and serve the nation.

Program Objective

The objectives of the program are:

1. To produce graduates with a solid foundation of knowledge in the core area of biotechnology that will be beneficial to contribute to International Biotechnology Research and Industry.
2. To produce graduates with the fundamental skills, knowledge, and practice of Biotechnology with IT-enriched knowledge to operate effectively and efficiently for direct involvement in problem-solving required in the biotechnology field.

3. To produce graduates with professionalism, ethics, communication skills, and understanding of contemporary issues in practice in delivering solutions relating to managing and utilizing bioresources.
4. To produce innovation in green and blue biotechnology to contribute to enhancing good health and well-being with a commitment to build and serve the nation for improving the quality of life.

Student Outcomes

After completing the study, graduate are:

1. Able to apply knowledge in the core area of biotechnology to manage and utilize the bioresources and environment.
2. Able to possess biotechnology and bioinformatics technical skills to analyze and synthesize bioresources.
3. Able to demonstrate professionalism, leadership, scientific ethics, and effective communication skills.
4. Able to design the solution to solve a problem relating to managing and utilizing bioresources based on the biotechnology application.
5. Able to utilize biotechnology application and bioinformatics for improving plant and marine bioresources, advancing good health and well-being.
6. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

Prospective Career of the Graduates

1. Biotechnology research and development specialist
2. Biomanufacturing engineer
3. Quality control specialist in a biotechnology related industry
4. Quality assurance specialist in a biotechnology related industry
5. Biotechnology regulatory affairs specialist
6. Marketing specialist; product specialist in biotechnology
7. Molecular biology analyst
8. Bioentrepreneur
9. Researcher
10. Bioinformatics specialist
11. Educator in the biotechnology field

Curriculum

The curriculum is designed in classes and laboratories to provide substantial knowledge and technical skills in biotechnology. Students will learn about (1) biosciences, including general biology, chemistry, microbiology, genetics, cell and molecular biology, genetic engineering, and plant tissue culture; (2) Industrial biotechnology, including fermentation technology and enzyme technology; (3) bioinformatics, including data science, basic programming, and big data; and (4) bio-entrepreneurship, bioethics, and scientific communication.

The curriculum supports the *Merdeka Belajar Kampus Merdeka* (MBKM) program, in which the students can choose the streaming “Smart Bioprospecting Technology” or minor programs and have two semesters for the enrichment program. The enrichment includes internships, research, entrepreneurship, study abroad, community service activities, and specific independent study programs.

- 1) This course is delivered in English
- 2) Global Learning System course
-) **AOL** - Assurance of Learning Process System
-) **AIE** - Artificial Intelligence Embedded Course

Minor/Free Electives:

-) For 5th Semester: Students are required to choose one of Minor Program or Free Electives. For Free Electives, students are required to choose from the list of Free Electives in Appendix.

Foreign Language Courses:

Foreign language courses are personalized courses that can be taken by the students according to their own pace from semester 1 until semester 4 or before they take enrichment. The courses are available at BINUSMAYA – Beelingua.

The following are the provisions of the courses that must be taken by students:

Foreign Language Courses		SCU
ENGL6253056	English for Frontrunners	0
ENGL6254056	English for Independent Users	0
ENGL6255056	English for Professionals	0
JAPN6190056	Basic Japanese Language*	0
CHIN6163056	Basic Chinese Language*	0

*) This course is optional for students

1. Students with Beelingua Placement Test score less than 60 are required to take English for Frontrunners and English for Independent Users.
2. Students with Beelingua Placement Test score between 60 and 99 are required to take English for Independent Users and English for Professionals.
3. Students with Beelingua Placement Test score greater than 99 are required to take English for Professionals. Additionally, students may choose to take either Basic Japanese Language or Basic Chinese Language.
4. Students are required to pass the foreign language courses before they take enrichment.
5. Students can see the requirements to pass the foreign language courses at BINUSMAYA – Beelingua.

Pre-thesis (2 SCU) & Thesis (4 SCU) can be taken in the 6th and/or 7th semester by the students who meet the requirements from the Study Program/Program

Global Business	V

The minor programs can change anytime based on the trends of knowledge and industry each year. Students will receive information about the updated minor programs during the registration period.

1. Minor Program: Creative Digital Storytelling

Introduction

Digital storytelling, by definition, is the process of telling a story using video, images, audio, music, geospatial applications, and any other digital media. Thus, this minor introduces the concept and skills in producing and communicating videos, images, and texts through English. It is interdisciplinary in its nature and relies heavily on critical and analytical thinking. It also aims to familiarize students with the technology/ tools needed to adapt a literary work to another form or vice versa. It is the minor that blend perspectives of arts with humanities to facilitate new interpretation of literary works.

Career Options

Social Media Content Creator; Digital Storyteller; Brand Designer; Digital Storytelling News Editor; Social Media Specialist; Digital Associate; Video Editor; Content Creator; Content Creator; Scriptwriter; Fiction writers; Non-Fiction Writers; Copywriter; Social Media Specialist.

3. Minor Program: Digital Ecosystem

Introduction

To face challenges in the era of technological disruption and the wave of the 4.0 industrial revolutions, this minor program offers foundational knowledge about the digital ecosystem in the 4.0 industrial revolutions. Through this minor program, students will be able to develop fundamental knowledge about main pillars of the digital ecosystem, such as informatics, business, and creative design. Students will also be able to combine the knowledge they gain from their respective majors with information technology to develop real solutions for society.

Career Options

Chief technology officer, digital business strategy expert/consultant, digital solution architect, digital business strategy manager, digital operations manager.

5. Minor Program: Interactive & Users Experience Design

Introduction

In today's digital era, people are competing to produce the best digital products that suit the users' needs. How can we make this happen? Minor Interactive & User Experience (UX) Design is the answer. In this Minor program, students will learn about the basics of UX starting from finding, designing, and building a digital product that is in accordance with a good UX concept to ensure that the digital products produced have adopted the UX theory. In this minor program, students will study UX from 3 (three) main pillars of UX, namely Information Systems, Psychology, and Design through 6 (six) subjects that can be selected.

Career Options

UX Researcher, UX Designer, Usability Analyst, Information Architect, Interaction Designer, Visual Designer, Content Strategies

6. Minor Program: Sustainable Development

Introduction

The minor program on the topic of Sustainable Development prepares students from other disciplines for careers in engineering-related fields. Students will receive enrichment in the fields of Architecture, Industrial Engineering, Civil Engineering, Computer Engineering, and Food Technology. Students also gain knowledge of the development and application of the latest technology in the engineering field, which supports sustainable development and the industrial revolution 4.0.

Career Options

Construction Manager; Property Manager; Building Manager; Civil Engineer; Project Manager; Pre Sales and Marketing Engineer, Product Specialist, Product Development, Business Development.

12. Minor Program: Content Creation

Introduction

You've probably heard it by now: Content is king. But why? Those days Consumers are going online, marketing has gone digital, and content creation is more important now than ever. Content creation encapsulates copywriting, design, production and other media that provide value and connect you to your target audience. Matching search intent and providing value (to the consumer and brand) is the foundation of successful content creation. Content creators produce work on a variety of platforms including social media, blogs, podcasts, video platforms, case studies, white papers, infographics and more.

Career Options

Content Creator, Influencer, Social media Specialist.

13. Minor Program: Immersive Journey to Japanese Language and Culture

Introduction

Immersive Journey to Japanese Language and Culture Minor program is focused on the basic learning of the Japanese language (equivalent to N5 or corresponding to CEFR levels A1 to A2). This includes an understanding of Japanese characters (Hiragana, Katakana, basic Kanji) and grammar. Additionally, it encompasses the comprehension of reading and listening skills in Japanese, covering vocabulary, phrases, and simple sentences. This program also includes the development of basic writing and speaking skills in Japanese.

Upon completion of this minor, students will be prepared to read Japanese written in Hiragana, Katakana, and basic Kanji, as well as understand everyday conversations in the Japanese language. Subsequently, students will be equipped to engage in basic-level Japanese speaking and writing.

The outcomes of this minor, built upon a foundation of basic Japanese language proficiency, will benefit students who plan to study abroad in Japan, travel to Japan, or pursue interests and hobbies related to Japan.

Career Options

Working in Japan, either in Indonesia or Japan, in the following fields as Consultant, Front Office, Tour Guide, Secretary, Finance, HR, Industry Creative (Content creator, dubber, cosplayer).

Course Distribution

14. Minor Program: Metaverse in Business

Introduction

The objective of the Metaverse in Business minor program in general is to offer a new learning experience in business innovation in the digital world. After completing the Metaverse in Business minor program, students will be able to design Virtual Reality applications so that they are able to present users in a virtual world, as if they are in another place, and develop Augmented Reality applications to present virtual effects in the real world.

Career Options

AR/VR Designer, AR/VR Developer, AR/VR Engineer, AR/VR Researcher.

15. Minor Program: Global Business

Introduction

The Global Business minor program is designed for students who aspire to integrate creativity, business acumen, and technological expertise in a global context. This program equips students with essential knowledge and skills in digital business innovation, creative industry management, and emerging technologies. Students will explore topics such as digital entrepreneurship, creative content monetization, business model innovation, and the application of advanced technologies like artificial intelligence, blockchain, and immersive media in creative industries. By combining business strategy with technological advancements, this minor prepares students to become agile professionals capable of navigating and leading in the evolving global marketplace. This program is ideal for students from various disciplines who wish to enhance their competencies in creative business and technology, fostering interdisciplinary innovation and international competitiveness.

Career Options

Digital Business Strategist, Creative Entrepreneur, Digital Marketing Specialist, UX/UI Designer, Tech-Driven Product Manager, Creative Industry Manager, E-commerce & Content Monetization Expert, Brand & Digital Experience Manager, Creative Technologist.

Enrichment Program I			20
CMDV6401056	Community Outreach Project Implementation	8	
CMDV6402056	Community Outreach Project for Biotechnology	8	
CMDV6403056	Scientific Ethics and Effective Communication	4	

Code	Course Name	SCU	Total
Enrichment Program II			
CMDV6404056	Professionalism and Leadership	4	20
CMDV6405056	Problem Solving for Community Project	8	
CMDV6406056	Community Outreach Project Management	8	

Certified Study Abroad Track

Code	Course Name	SCU	Total
Enrichment Program I/II			
GLOB6005056	Elective Course for Study Abroad 1	4	20
GLOB6006056	Elective Course for Study Abroad 2	4	
GLOB6007056	Elective Course for Study Abroad 3	4	
GLOB6008056	Elective Course for Study Abroad 4	4	
GLOB6009056	Elective Course for Study Abroad 5	2	
GLOB6010056	Elective Course for Study Abroad 6	2	
GLOB6011056	Elective Course for Study Abroad 7	2	
GLOB6012056	Elective Course for Study Abroad 8	2	
GLOB6013056	Elective Course for Study Abroad 9	2	
GLOB6014056	Elective Course for Study Abroad 10	2	
GLOB6015056	Elective Course for Study Abroad 11	2	
GLOB6016056	Elective Course for Study Abroad 12	2	
GLOB6249056	Elective Course for Study Abroad 27	3	
GLOB6250056	Elective Course for Study Abroad 28	3	
GLOB6251056	Elective Course for Study Abroad 29	4	

*) Transferred courses will be transferred based on credit transfer policies on study program with total of 20 credits

Certified Specific Independent Study Track

Code	Course Name	SCU	Total
Elective courses list for Specific Independent Study*			
Enrichment Program I/II			
CSIS6001056	Course Certification	3	20
CSIS6002056	Technical Skill Enrichment	4	
CSIS6003056	Industrial Project	9	
CSIS6004056	Soft Skill Enrichment	4	
CSIS6005056	Elective Course for Specific Independent Study 1	8	
CSIS6006056	Elective Course for Specific Independent Study 2	8	
CSIS6007056	Elective Course for Specific Independent Study 3	6	
CSIS6008056	Elective Course for Specific Independent Study 4	6	
CSIS6009056	Elective Course for Specific Independent Study 5	6	
CSIS6010056	Elective Course for Specific Independent Study 6	5	

Code	Course Name	SCU	Total
CSIS6011056	Elective Course for Specific Independent Study 7	5	
CSIS6012056	Elective Course for Specific Independent Study 8	5	
CSIS6013056	Elective Course for Specific Independent Study 9	5	
CSIS6014056	Elective Course for Specific Independent Study 10	4	
CSIS6015056	Elective Course for Specific Independent Study 11	4	
CSIS6016056	Elective Course for Specific Independent Study 12	4	
CSIS6017056	Elective Course for Specific Independent Study 13	4	
CSIS6018056	Elective Course for Specific Independent Study 14	4	
CSIS6019056	Elective Course for Specific Independent Study 15	3	
CSIS6020056	Elective Course for Specific Independent Study 16	3	
CSIS6021056	Elective Course for Specific Independent Study 17	3	
CSIS6022056	Elective Course for Specific Independent Study 18	3	
CSIS6023056	Elective Course for Specific Independent Study 19	3	
CSIS6024056	Elective Course for Specific Independent Study 20	3	
CSIS6025056	Elective Course for Specific Independent Study 21	2	
CSIS6026056	Elective Course for Specific Independent Study 22	2	
CSIS6027056	Elective Course for Specific Independent Study 23	2	
CSIS6028056	Elective Course for Specific Independent Study 24	2	
CSIS6029056	Elective Course for Specific Independent Study 25	2	
CSIS6030056	Elective Course for Specific Independent Study 26	2	
CSIS6031056	Elective Course for Specific Independent Study 27	2	
CSIS6032056	Elective Course for Specific Independent Study 28	2	
CSIS6033056	Elective Course for Specific Independent Study 29	1	
CSIS6034056	Elective Course for Specific Independent Study 30	1	
CSIS6035056	Elective Course for Specific Independent Study 31	1	
CSIS6036056	Elective Course for Specific Independent Study 32	1	

*) For students who take BINUS certified specific independent study courses, they should take the first 4 courses on the list above (20 credits). Meanwhile, electives courses 1 to 32 are transferred courses for students who take certified specific independent study courses outside BINUS University. Transferred courses will be transferred based on credit transfer policies on study program with total of 20 credits

The Table of Prerequisite for Biotechnology Study Program

Course		SCU	Sem.	Prerequisite Course		SCU	Sem.
BTEC6015056	Plant Biotechnology	2/2	5	BTEC6006056	Plant Tissue Culture	2	4
BTEC6018056	Bioinformatics II	2/2	5	BTEC6008056	Bioinformatics I	2/2	4

Student should pass all of these quality controlled courses as listed below:

No	Course Code	Course Name	Minimal Grade
1.	CHAR6013056	Character Building: Pancasila	B
2.	BTEC6005056	Cell and Molecular Biology*	C
3.	BTEC6008056	Bioinformatics I	C
4.	BTEC6010056	Genetic Engineering	C
5.	BTEC6012056	Fermentation Technology*	C
6.	ENPR6312001	Venture Creation	C
Stream Courses			
7.	BTEC6015056	Plant Biotechnology	C
8.	BTEC6016056	Marine Biotechnology*	C
