

Digital Business Management

Introduction

The Digital Business Management Program from Business Management BINUS Online Undergraduate Program provides students with the highest standard of business management education with a focus on the utilization of technology to develop business solutions. The Digital Business Management Program is meticulously designed to equip students with the knowledge, skills, and tools necessary to thrive in today's fast-paced and ever-evolving digital landscape.

The Digital Business Management Program is designed to prepare the students to be ready to become proficient leaders who can navigate and leverage the intricacies of digital business. To support this objective, the Digital Business Management Program places a strong emphasis on developing critical thinking, problem-solving, and leadership skills. The Digital Business Management Program offers students a wide variety of academic career and leadership programs including collaborative projects, internships, industry partnerships, study abroad, and research activities, providing them with invaluable experience and a robust professional network, as well as applied research theses with real digital business management-related problems. Students will engage in guest lectures, international experience, industrial sharing sessions from various industry practitioners and professionals, involvement in student organizations, and community service.

The program offers a comprehensive curriculum that blends core business principles with cutting-edge digital technologies. A bachelor's degree in Digital Business Management Program enables students to achieve foundation knowledge and develop their analytical skills in Design Thinking in Business, Strategic Management, Retail and Merchandising, and Project Management. By integrating theoretical knowledge with practical applications, the program ensures that graduates are well-prepared to meet the challenges and seize the opportunities presented by the digital economy. The curriculum in the Business Management Study Program equipped students to become future-ready business leaders who can harness the power of digital technologies to drive growth and innovation by embedding the application of Artificial Intelligence as well as has been benchmarked to renowned universities around the world. This curriculum is then combined with the Indonesian National Curriculum and core values developed by BINUS.

Vision

To become a world-class Distance Learning Management Study Program in 2035 in international business management, entrepreneurship, and digital business with a continuous commitment to fostering and empowering communities.

Mission

The mission of Business Management Department is to contribute to the global community through the provision of world-class education by:

1. Developing Binusian competence and expertise through Management Science, International Business, Entrepreneurship, and Digital Business with the concept of online learning and awarding excel Binusian
2. Guiding Binusian through research in Business Management Science and enrichment of technology development, which impacts business, society, and the nation

3. Fostering Binusian to continue to develop knowledge through independent and sustainable enrichment
4. Empowering the society and partner community by Binusian through creative economy development
5. Consistently applying novel Management Science aligned with human resources needs in the industry (multidisciplinary perspective)

Program Objective

The objectives of the program:

1. Generating Binusian who have competence and expertise in Management Science, International Business, Entrepreneurship, and Digital Business and rewarding Binusian achievement nationally and internationally
2. Provide excellent research related to Business Management issues through a multidisciplinary approach and impactful to business, communities, and nation
3. Generating Binusian who have managerial skills from independent and continuous learning
4. The society and partner community can develop their skills and business sustainably
5. Binusian becomes a creative entrepreneur and agent of change equipped with knowledge and expertise in digital business management

Student Outcomes

After completing the study, graduates are:

1. Able to comprehend management and business concepts
2. Able to systematically and innovatively solve problems and overcome challenges in businesses
3. Able to perform global and sustainability mindsets in applying business concepts
4. Able to apply ethical and professional values
