

## Interactive Design and Technology

### Introduction

The IDT curriculum emphasizes both creative and analytical parts of design, offering the graduates a set of knowledge to create user-centered solutions that improve functionality and engagement. Design thinking, user research, wireframing, prototyping, and usability testing techniques will be introduced to students through hands-on projects and real-world scenarios. By the end of the program, they will have a packed portfolio demonstrating their ability to create responsive and engaging interfaces that meet user needs while achieving its goals.

### Vision

Visual Communication Design Study Program which produces world-class designers who are able to foster and empower the community, have expertise in the field of creative technology while still promoting the values of local wisdom as its trademark.

### Mission

The missions of Interactive Design and Technology Program are:

1. Educate prospective visual communication designers who are committed to a professional attitude and are aware of local values
2. Prepare students to be able to occupy strategic positions and be recognized in the industrial / professional world while still upholding professional ethics and being able to contribute to Indonesian society.
3. Fostering cooperative relationships with various parties both national and international to always maintain the proficiency of the knowledge for the students.

### Program Objective

The objectives of the program are:

1. Providing graduates with global-mind set who have Visual Communication Design knowledge that carrying the values of local wisdom, interactive technology and entrepreneurship
2. Working and being accepted by the creative industry, society and the nation through the application of knowledge that utilizing with communication and information technology.

### Student Outcomes (or Learning Goals only for BBS Program)

After completing the study, graduates are:

1. *Able to create printed and digital Visual Communication Design (VCD) works that have added values and aesthetics, to overcome problems of identity, mass communication, and competition faced by stakeholders;*
2. *Able to conduct research and idea exploration to set the objectives, communication targets, and Visual Communication Design (VCD) prototype solutions that can overcome problems of identity, mass communication, and competition by considering the aspects of ethical, historical, cultural, social consequences, regulations and technology;*
3. *Able to analyze efficiency of material utilization and time in the production process of each selected alternative solution prototype of Visual Communication Design (VCD), without changing the essence and aesthetic design.*
4. *Able to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.*

5. *Able to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline*
6. *Able to communicate effectively in a variety of professional contexts.*
7. *Able to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.*
8. *Able to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline*
9. *Able to support the delivery, use, and management of information systems within an information systems environment.*
10. *Able to develop UI and UX design to support IS development.*
11. *Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving*

### **Prospective Career of the Graduates**

After graduating from the Interactive Design and Technology Program :

1. Digital Business Specialist
2. System Analyst
3. System Developer
4. Information System Consultant
5. Researcher
6. UI Designer
7. UX Researcher
8. Creative Director
9. Human Computer Interaction Designer
10. Entrepreneur
11. Creative Consultant
12. Digital Artist
13. Branding Consultant
14. Intellectual Property Creator

### **Curriculum**

The curriculum of IDT aims to bridge the gap between creativity and functionality, ensuring students can create digital products that not only look appealing but also offer seamless user experiences. Whether working on mobile apps, websites, or software, students will learn to apply design principles that prioritize usability and accessibility. The curriculum offers a practical approach, with projects that mirror real-world challenges in the UI/UX industry. This program emphasizes the importance of user research and usability testing, enabling students to make informed design decisions based on actual user data. By conducting user interviews, surveys, and A/B testing, students will develop the ability to create designs that are not only aesthetically pleasing but also functionally effective.

Upon completion of the program, graduates will be well-equipped for careers in UI/UX design, digital product design, and interaction design. They will have built a strong portfolio showcasing their ability to create user-friendly interfaces that solve real-world problems. Whether they aim to work for tech companies, start-ups, or design

agencies, the skills and experiences gained through the UI/UX and Design Learning program will position them as competitive candidates in a fast-growing and dynamic field.
