

## Psychology

### Introduction

As long as human exist, the discipline of psychology can be applied in broad ranging aspects of life. Equipped with a good understanding of basic theories of psychology, individuals may be expected to work in variety of milieus. Traditional wise, psychology focuses 'only' on the study of normal and abnormal human's functioning as well as provides treatment to patients with mental and behavioral problems. Without leaving its traditional root, psychology nowadays has also touched on more practical areas, including the mental function of healthy individuals such as athletes, space explorers, stage performers, and employees, even the effect on interaction between human and computer. Department of Psychology offers an undergraduate (*Sarjana*) degree program. According to the existing National Regulation, the undergraduate psychology curriculum focuses on the basic scientific knowledge of human behavior and mental process alongside with the basic skill to design and conduct psychological intervention. Par excellence, at BINUS UNIVERSITY, students of Psychology will be strengthened by the understandings of urban communities' life and the use of technology to improve human performance, as the exclusive advantages to contributing in their working community.

### Vision

Being a respected educational institution in the field of applied psychology that produces graduates who mastered the substance of science of psychology and equipped with specific knowledge and skills in information and communication technology.

### Mission

The mission of Psychology Department is to contribute to the global community through the provision of world-class education by:

1. Educating students from diverse background with the fundamental skills, knowledge and practice of psychology that are supported by information and communication technology, to prepare them for the career world and/or continue advanced degrees in psychology or other disciplines.
2. Intensifying the research ethos and the societal involvement activities, which are directly linked to the national attributes and supported with the latest academic environment and materials.
3. Developing and acknowledging all talents for the purpose of positively contributing to the quality of life of industrial community, both nationally and globally.
4. Creating global leaders who distinguish themselves as professional in human intervention with psychological knowledge and skills in their work organizations and communities.
5. Conducting professional service and career development in psychology and its related area with an emphasis of application of knowledge and quality of life to the society.

### Program Objective

The objectives of the program are:

1. To provide students with knowledge of the systematic study of human behaviour and mental processes, and its systematic application.
2. To sharpen graduates' readiness for employment, graduate school or professional school, especially by equipping them with solid skills in the use of technology applications related to psychology.
3. To facilitate students in the development of their responsible behaviour, both ethically and socially, for professional and personal settings in a landscape that involves diversity.

## Student Outcomes

After completing the study, graduates are:

1. Able to use scientific reasoning based on the understanding of the basic concepts and theories of psychology, in order to describe and analyze psychological phenomena at individual, group, organization, and community level;
2. Able to conduct scientific psychological research on a critical basis in order to explain psychological phenomena;
3. Able to develop psychological assessment instruments in order to explain psychological variables;
4. Able to use ethical standards in applying psychological science and social life;
5. Able to plan personal development and career as preparation for facing the global world challenges;
6. Able to conduct psychological intervention using scientific reasoning based on the understanding of the basic concepts and theories of psychology.

## Prospective Career of the Graduates

After finishing the study, the graduates have an ideal foundation to enter many career opportunities, such as in:

1. Human Resource, Educational, or Community Development Personnel
2. Assistant Psychologist
3. Consultant in various areas of psychology, such as education and human performance
4. Junior Researcher
5. Counselor
6. Writer/Content-Creator/Influencer
7. Entrepreneur/Start-Up Developer

## Curriculum

The curriculum of undergraduate degree of Psychology in BINUS UNIVERSITY is based on the National Curriculum and mutual agreement among the members of Indonesian Psychology Colloquium Forum. To cope with the global trend of the discipline of psychology, the Department of Psychology of BINUS UNIVERSITY also expands its curriculum by incorporating the ten areas of development of psychology as defined by the American Psychological Associations. To strengthen our students' skills and understanding of the application of psychological theories in working and social life, we designed a curriculum and academic environment that focuses on the human performance intervention. The intervention is focused on three streaming:

1. Educational Psychology  
This stream focuses on the application of psychological principles in the areas of education and designing of instructional design
2. Community Psychology  
This stream focuses on the application of psychological principles in designing social intervention program to improve communities' quality of life
3. Industrial & Organizational Psychology  
This stream focuses on the application of psychological principles in designing intervention program to improve team and individual performance in organizational context.
