Business Management

Introduction

In facing rapid growth in the service business in the global market, especially in the fields of e-commerce, marketplace, and supply chain, it is necessary to provide graduates to fill the growing demand for professionals in the service business which is equipped with higher cognitive skills and social and emotional skills. In connection with that, the Business Management Program provides its students with a suitable curriculum to deal with these challenges. The program has had international business school accreditation (AACSB) and national BAN-PT 'UNGGUL' accreditation. The program equips the students with knowledge and expertise in management concepts, creative thinking and entrepreneurial skills, global mindset, ethics, and digital service and supply chain management. The uniqueness of this program is strengthening the students with "service business and supply chain." The service and supply chain will be crucial future competencies for any company, namely the competencies in developing integrated solutions for customer problems (service orientation), including managing the internal and external parties (supply chain: retail management and distribution) and use of the latest technology in the process (digital and AI). Therefore, these competencies will be a key competitive advantage for any company. The students will also get updated knowledge and experience from industries and soft-skills training/workshops that enable them to survive and expand their capacity. The teaching-learning process is carried out through a variety of teaching-learning strategies encompassing business case studies, business simulations, laboratory, collaborative learning, international guest lecturers, industry visits, role-playing, free-elective courses, and enrichment program or KAMPUS MERDEKA.
