

Finance

Introduction

Our Finance Program (international program) provides its students with unerring knowledge and practical skills of Accounting and Finance within international and national contexts. The program is the first in Indonesia to adopt the International Financial Reporting Standards (IFRS) in all Financial Accounting teaching materials and implements the approach of student-centered learning (SCL) and problem-based learning (PBL) to improve the critical thinking as well as business communication skills. The program has strengthened its curriculum with more focus on the Finance courses, with various Double Degree programs from overseas prominent university partners. The program designs its curriculum and environment to provide students with excellent learning journey, providing experiences during their time at university, encompassing both academic and personal development. This journey includes several key phases such as orientation and adjustment (Freshmen Year Program), academic development, personal growth, experiential learning, networking, career preparation, and beyond graduation.

As for personal growth, the program aims to develop both the professional and soft skills of the students. The teaching delivery within the program integrates teaching methods that build effective personal, social, and ethical professional conduct. Team building within and across disciplines is a unique feature at BINUS UNIVERSITY INTERNATIONAL.

The program accommodates the need to develop teamwork and puts more emphasize on the importance of advanced ICT (Information and Communication Technology) skills through courses embracing an innovative pedagogy approach, the recent development of artificial intelligent (AI), and data analytics as well as financial related technology. The approach is developed in check with the industry needs and international academic community. The rigorous of the courses also being assessed gradually by professional designation in accounting and finance areas to keep up with the industry updates.

Vision

A leading and innovative Finance Program in the Southeast Asian region that cooperates closely with accounting & finance industry and related institutions to produce professionals with extensive business, finance and investment knowledge.

Mission

We are committed to developing people with the knowledge, skills, and attitudes attained by delivering international quality education and relevant research for the advancement of our stakeholders.

Pursuant to this mission, we are continuously aiming to:

1. Meet stakeholders expectations,
2. Provide academic, professional and service excellence,
3. Promote high quality research,
4. Build strong corporate connections,
5. Gain international recognition and accreditations.

Program Objective

The objectives of the program are:

1. To provide students with a solid foundation of technical knowledge ranging from fundamental principles to state-of-the-art accounting skills and abilities they will need in accounting & finance practice,
2. To provide students with solid technical skills and conceptual knowledge of finance to succeed in finance field,
3. To equip students with organizational, business, and ICT knowledge that is demand by finance and accounting industries

Student Outcomes

Upon successful completion of this 4-year program, students are expected to be able to:

1. Able to interpret the entity's financial statements by applying accounting principles to transactions in accordance with the IFRS converged Financial Accounting Standards and the prevailing ETAP financial accounting standards.
2. Able to analyze performance reporting according to accounting principles as the basis for planning, controlling and decision-making by entity management to increase the effectiveness of organizational performance.
3. Able to carry out the audit process and use of accounting information systems for auditing financial statements according to Generally Accepted Auditing Standards (GAAS) and International Standards on Auditing (ISA).
4. Able to apply tax obligations for the Monthly Taxes and Annual Taxes in accordance with the tax regulations in Indonesia.
5. Able to analyze financing and investment decision and their impacts on national and international financial markets.
6. Able to conduct business analysis using the knowledge and concept in business and Information and Communications Technology (ICT) to provide strategic solution in the finance field.
7. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving

Prospective Career of the Graduates

Career opportunities in Accounting & Finance industries are increasingly the focus of the program. About 90% of the graduates have careers in the Big 4 international public accounting firms, multinational companies, and national plus companies. Some choose to be entrepreneurs and build their own businesses.

The careers pursued are:

1. Financial Advisor;
2. Investment Banker,
3. CFO;
4. Innovative Finance Specialist;
5. Private Equity,
6. Business Consultant;
7. International Business Development Manager;
8. Regulator
9. Start-Up Founder;
10. Banker;
11. Financial Analyst;
12. Risk Analyst/ Credit Controller;
13. Data Analyst;

14. Auditor;
15. Corporate Accountant;
16. Systems Designer;
17. Project Manager;
18. Tax Planner/ Tax Accountant;
19. Entrepreneur.

This program is designed to ensure students are well equipped with the contemporary development of business and finance concepts and current best practices, which includes:

1. Business model innovation;
2. Finance ecosystems;
3. Digital transformation in business;
4. Venture capital;
5. Applied consulting project management.
6. Sustainability/ ESG Specialist

Our Double Degree of Finance Program also will provide students with skills and knowledge in innovative finance strategies for business creation and invent financial solutions with data analytics.

These double degree programs are developed based on strong collaboration with our outstanding business school partners which enable students to choose the following stream:

1. Business Finance and Financial Technology with the University of New South Wales (UNSW), Australia;
2. Applied Business Finance with Victoria University of Wellington (VUW), New Zealand;
3. Finance with RMIT (Melbourne), Australia;
4. Accounting with RMIT (Melbourne) Australia;
5. Strategic Business Finance with Cologne Business School (CBS), Germany.
6. Accounting and Finance with Macquarie, Australia
7. Accounting and Finance with University of Birmingham, United Kingdom
8. Financial Services with Edinburgh Napier University, United Kingdom
9. Master in Finance or Accounting with Macquarie, Australia

Award/Degree

- Sarjana Ekonomi from BINUS UNIVERSITY, with a dual degree of:
- Bachelor of Science (B.Sc) from Cologne Business School, Germany
- Bachelor of Commerce (B.Com) from the University of New South Wales, Australia
- Bachelor of Commerce (B.Com) from Victoria University Wellington, New Zealand
- Bachelor of Science (B.Sc) from University of Birmingham, United Kingdom
- Bachelor of Arts (BA) Hons from Edinburgh Napier University, United Kingdom
- Master of Commerce (M.Com) from Macquarie University, Australia

Major and Stream

Stream	Degree			Partners
	Single	Title	Double	
Business Finance & Financial Technology			√	S.Ak. & B.Com University of New South Wales (UNSW), Australia

Business and Finance			√	S.Ak. & B.Sc CBS International Business School, Germany
Accounting and Finance			√	S.Ak. & B.Sc University of Birmingham, United Kingdom
Financial Services			√	S.Ak. & BA (Hons) Edinburgh Napier University, United Kingdom
Master Track			√	S.Ak. & B. Com/B.Bus/ & M.Com Macquarie University, Australia Boston MET

Double Degree Program in Finance

The Finance Double Degree is growing with more creditable partner universities from different countries. The stream equips students with both general accounting and specific finance skills, such as Business Finance, Applied Finance, Business and FinTech, as well as Strategic Finance. The time spent in partner universities can vary depending on the scheme agreed with the partner universities. For example:

The University of New South Wales (UNSW) agreed to have students studying in Australia from the 5th to 8th semesters (4 semesters). The students will then return to Indonesia for their final project defense. The cumulative GPA for eligibility to embark is 3.00.

Victoria University of Wellington (VUW) allow students to study in New Zealand and Australia from the 5th to 8th semester (3 or 4 semesters). Students who study for 3 semesters will return to Indonesia for their final project defense, while those studying for 4 semesters can complete thesis supervision remotely.

RMIT provides the options of Bachelor of Business (B.Bus) in Finance or Bachelor in Accounting (B.Acc). Students will study for 2 semesters in Melbourne if they opt for the B.Bus in Finance and 3 semesters for B.Acc.

The Bachelor of Science (B.Sc.) program at the University of Birmingham, United Kingdom, offers a major in Accounting and Finance. Students will complete Semesters 1 to 4 at BINUS University and continue their studies in Semesters 5 to 8 at the University of Birmingham.

The Financial Services stream offered by Edinburgh Napier University will be implemented starting from the 2025 intake (B2029) onward. Students will complete the first three years of study (Semesters 1-6) at BINUS University and continue the final year of study (Semesters 7-8) at Edinburgh Napier University.

The double degree with Cologne Business School, Germany, provides knowledge and skills in both areas of Finance and Strategic Management & Business. This double degree program requires students to go to Cologne, Germany, and study there for 2 semesters, starting from the 7th to the 8th semester. Students must complete their final projects while staying in Cologne. The cumulative GPA for eligibility before embarkation is 2.75. The remaining graduation requirements must be met as per the requirements applied in BINUS UNIVERSITY INTERNATIONAL.

Master Track

The master track offered is growing in terms of partner universities. The track offers students Accounting, Finance, and Management skills. Students taking the master track will embark after students completed all bachelor requirements'. The cumulative GPA for eligibility to embark is 3.00.

Teaching, Learning, and Assessment Strategies

The teaching and learning processes are conducted through lectures/tutorials, student-centered learning, problem-based learning, a computer laboratory, practical demonstrations/presentations and activities, completed with students' independent studies. Finance students are expected to not only master accounting and financial issues, but also to enrich their capabilities in being exposed to the other business areas, real life, and entrepreneurial skills. In order to adapt with digital transformation in the industry, students are also exposed to a hands-on ICT application through courses such as Accounting Information Systems, Financial Ecosystems & Technology, as well as Business Statistics and Analysis.

By having qualified lecturers and guest lecturers from professional industries, the students will also be able to gain knowledge from both sides, i.e. theoretical and practical frameworks, through an in-depth analysis of case studies, and individual/group work projects. For doing their research activities, students can access magazines, books, academic journals in a good quality library – including accessing the online library to get updated academic papers. All coursework is assessed through a variety of assessment tasks such as reports, presentations, assignments, individual and group projects, and thesis/final project reports as well as mid-semester and final semester examinations. To further enrich our Bachelor studies experience, we provide the students with internship experiences embedded in the course, depending on the chosen stream of the double degree program.

A series of extra-curricular activities are compulsory in the Finance program. These activities will allow students to develop their social awareness, competitiveness, and soft skills needed to be prepared for their future work environment.

In addition, innovation habits will be developed through course assessments that place an emphasis on innovation and entrepreneurial skills. Project Hatchery and Entrepreneurship Hatchery are courses that reflect such competence designed by the Center of Innovation and Entrepreneurship in BINUS UNIVERSITY INTERNATIONAL. Students are required to translate their selected innovative ideas into a visible design to comprehend the end-to-end innovation process. This innovation thinking approach is implemented in the teaching, learning, and assessment process of several courses throughout the program.

Study Completion Requirements

To graduate from the program, all students must complete and pass all courses listed in the program and the chosen double-degree stream. For example, the program requires students to take 146 scu's. The total scu's include a mandatory final project that is worth 6 scu's. The scu's from partner universities as well as elective courses are part of the total scu's. The other graduation requirements follow the general requirements applied by BINUS UNIVERSITY INTERNATIONAL.

Course Structure

Courses applied to all Finance students

Semester	Code	Course Name	SCU	Total
