

## Psychology

### Introduction

As long as human exist, the discipline of psychology can be applied in broad ranging aspects of life. Equipped with a good understanding of basic theories of psychology, individuals may be expected to work in variety of milieus. Traditional wise, psychology focuses 'only' on the study of normal and abnormal human's functioning as well as provides treatment to patients with mental and behavioural problems. Without leaving its traditional root, psychology nowadays has also touched on more practical areas, including the mental function of healthy individuals such as athletes, space explorers, stage performers, and employees, even the effect on interaction between human and computer. Department of Psychology offers an undergraduate (*Sarjana*) degree program. According to the existing National Regulation, the undergraduate psychology curriculum focuses on the basic scientific knowledge of human behaviour and mental process alongside with the basic skill to design and conduct psychological intervention. Par excellence, at BINUS UNIVERSITY, students of Psychology will be strengthened by the understandings of urban communities' life and the use of technology to improve human performance, as the exclusive advantages to contributing in their working community.

### Vision

To become a center of excellence for digital psychology that fosters and empowers the community through the integration of caturdharma to democratize the use of technology to improve human dignity and well-being in the local to global scope.

### Mission

The mission of the Department of Psychology is to contribute to the society by organizing a digital psychology center through:

1. Educating BINUSIAN from various backgrounds with knowledge, skills, and attitudes in the field of psychology supported by the latest technology, to prepare them for the world of careers and / or continue their education in psychology or other disciplines.
2. Intensifying the ethos of data-based research to contribute positively in solutions to improve human dignity and well-being, both at local and global levels.
3. Fostering BINUSIAN to become lifelong learners through critical and measurable self-enrichment activities.
4. Developing and recognizing all BINUSIANs' talents to be involved in improving human dignity and welfare by prioritizing justice, equity, and a sustainable community.
5. Enriching the BINUS Higher Education system based on a humanist perspective.

### Program Objective

The objectives of the program are:

1. Making graduates competent in data-based studies & methodologies regarding human behavior and mental processes and their strategic application for improving community welfare at the local-global level.
2. Making graduates ready for a career and/or continuing education in psychology or other fields of science, by having qualified skills in the use of the latest technology.
3. To enable graduates to develop solution-based and responsible behavior, both ethically and socially, in a professional and personal sphere by embracing diversity.

## Student Outcomes

After completing the study, graduates are:

1. Able to use scientific reasoning based on an understanding of basic concepts and psychological theories, in order to describe and analyze psychological phenomena at the individual, group, organizational, and community levels.
2. Able to conduct critical scientific research, including developing psychological assessment instruments, to explain psychological phenomena using the latest information and communication technology (ICT).
3. Able to ethically conduct data-driven/data-driven psychological interventions for urban communities.
4. Able to plan self and career development in preparation for the challenges of the global world.
5. Able to carry out psychological interventions as a solution for urban communities in accordance with the context of the applied areas.
6. Able to apply interdisciplinary knowledge and skills in developing alternative solutions for problem-solving.

## Prospective Career of the Graduates

After finishing the study, the graduates have an ideal foundation to enter many career opportunities, such as in:

1. Human Resource, Educational, or Community Development Personnel
2. Assistant Psychologist
3. Consultant in various areas of psychology, such as education and human performance
4. Junior Researcher
5. Counselor
6. Writer/Content-Creator/Influencer
7. Entrepreneur/Start-Up Developer

## Curriculum

The curriculum of undergraduate degree of Psychology in BINUS UNIVERSITY is based on the National Curriculum and mutual agreement among the members of Indonesian Psychology Colloquium Forum. To cope with the global trend of the discipline of psychology, the Department of Psychology of BINUS UNIVERSITY also expands its curriculum by incorporating the ten areas of development of psychology as defined by the American Psychological Associations. To strengthen our students' skills and understanding of the application of psychological theories in working and social life, we designed a curriculum and academic environment that give students the opportunity to choose independently the area they want to study more deeply, either through Streaming, Minor, or Free-elective courses.

On Free-elective, students can take any courses from any departments, as per their interest. While on the Minor programmes, students can take one of the minors which is a collaboration across departments, such as:

1. Human Capital Digital Workplace
2. Interactive & User Experience Design
3. Sustainable Development
4. Virtual Services
5. Cross Cultural Communication
6. Culinary
7. Digital Business
8. Digital Ecosystems

The Minor programs that been provided can be added along with the development in the university and society. Besides Free-elective or Minor, students can choose one of three Streaming on Psychology that focuses on the human performance intervention:

1. Educational Psychology: focuses on the application of psychological principles in the areas of education and instructional design
2. Community Psychology: focuses on the application of psychological principles in designing social intervention programs to improve communities' quality of life
3. Industrial & Organizational Psychology: focuses on the application of psychological principles in designing intervention programs to improve team and individual performance in organizational context.

## 16. Minor Program: Immersive Journey to Japanese Language and Culture

### Introduction

Immersive Journey to Japanese Language and Culture Minor program is focused on the basic learning of the Japanese language (equivalent to N5 or corresponding to CEFR levels A1 to A2). This includes an understanding of Japanese characters (Hiragana, Katakana, basic Kanji) and grammar. Additionally, it encompasses the comprehension of reading and listening skills in Japanese, covering vocabulary, phrases, and simple sentences. This program also includes the development of basic writing and speaking skills in Japanese.

Upon completion of this minor, students will be prepared to read Japanese written in Hiragana, Katakana, and basic Kanji, as well as understand everyday conversations in the Japanese language. Subsequently, students will be equipped to engage in basic-level Japanese speaking and writing.

The outcomes of this minor, built upon a foundation of basic Japanese language proficiency, will benefit students who plan to study abroad in Japan, travel to Japan, or pursue interests and hobbies related to Japan.

### Career Options

Working in Japan, either in Indonesia or Japan, in the following fields as Consultant, Front Office, Tour Guide, Secretary, Finance, HR, Industry Creative (Content creator, dubber, cosplayer).

## 18. Minor Program: Global Business

### Introduction

The Global Business minor program is designed for students who aspire to integrate creativity, business acumen, and technological expertise in a global context. This program equips students with essential knowledge and skills in digital business innovation, creative industry management, and emerging technologies. Students will explore topics such as digital entrepreneurship, creative content monetization, business model innovation, and the application of advanced technologies like artificial intelligence, blockchain, and immersive media in creative industries. By combining business strategy with technological advancements, this minor prepares students to become agile professionals capable of navigating and leading in the evolving global marketplace. This program is ideal for students from various disciplines who wish to enhance their competencies in creative business and technology, fostering interdisciplinary innovation and international competitiveness.

### Career Options

Digital Business Strategist, Creative Entrepreneur, Digital Marketing Specialist, UX/UI Designer, Tech-Driven Product Manager, Creative Industry Manager, E-commerce & Content Monetization Expert, Brand & Digital Experience Manager, Creative Technologist.
