

Master of Law

Introduction

Rapid advancements in technology are increasingly shaping the business landscape in today's digital and globalized era. To foster a fair and competitive business environment, the role of business law professionals has become more essential than ever. The Master of Business Law program at BINUS University is designed in a structured, comprehensive, and systematic manner to equip graduates with multidisciplinary knowledge and a strong intellectual foundation. Through this approach, graduates are prepared to pursue outstanding professional careers and become effective leaders in the legal and business sectors.

The Master of Business Law (MBL) program at BINUS University offers long-term strategic advantages for your career through the following distinctive strengths:

- **International Business Law Specialization**
A strong focus on international trade law, providing in-depth knowledge and expertise in global business regulations and practices.
- **Technology Integration (Cyber Law & ICT Law)**
The curriculum is enriched with comprehensive studies in Cyber Law and Information, Communication, and Technology (ICT) Law, enabling graduates to navigate complex legal challenges in the digital era.

The Master of Business Law program at BINUS University is open to graduates from a wide range of academic backgrounds, not limited to law. This inclusive approach allows professionals from various disciplines to deepen their understanding of legal aspects and gain valuable insights into the legal dimensions of today's business and industrial environments.

Vision

By 2035, the Master of Laws at Bina Nusantara University will become a reputable study program at the global level in the field of information technology-based business law.

Mission

The mission of Business Law Department is to contribute to the global community through the provision of world-class education by:

1. Organizing conceptual, procedural, and factual learning in the field of ICT-based business law.
2. Actively contributing to the development of theories and practices of ICT-based business law on national, regional, and global scales.
3. Committing the noble values of the legal profession in addressing business law issues.

Program Objective

The objectives of the program are:

1. To provide students with ICT best practices in order to increase their competitive advantage by applying the leading technologies.
2. To provide students with advanced knowledge in innovation, technology, and leadership in order to pursue efficient as well as effective business processes.
3. To provide students with international experience in research and development in order to improve humanity as well as environmental aspects.

Student Outcomes

After completing the study, graduates are:

1. Able to identify legal problems and apply settlement methods appropriately.
2. Able to formulate legal opinions in an argumentative manner based on normative provisions and relevant legal doctrines.
3. Able to present an effective alternative legal settlement.
4. Able to identify current issues in business law, analyze and communicate them, by optimizing understanding of legal theory and practice in the field of information technology-based international business.

Prospective Career of the Graduates

Graduates of the Master of Business Law program have broad career opportunities at managerial and professional levels within multinational corporations, government institutions, and legal organizations, including roles such as:

- Legal Analyst / Legal Consultant
- Litigation Lawyer / Corporate Lawyer
- Legal Academic / Researcher
- Attorney / Judge / Mediator / Arbitrator

Curriculum

The Master of Business Law Program is designed to equip students with a strong foundation in business and legal principles relevant to today's global and technology-driven economy. The curriculum focuses on International Business Law, Cyber Law, and ICT Law, while fostering critical thinking, legal problem-solving, and strategic decision-making skills. Graduates are prepared to excel in professional, managerial, and leadership roles across legal, corporate, and governmental sectors.
