Curriculum

There are five main categories in Visual Communication Design program:

- Fundamental Design (Semester 1-2)**
Students explore the theories and design practice in terms of design elements & principles, layout, semiotics, visual language, aesthetics, design value, the matters of size, composition, design materials, colours, as well as character building.
- Design Execution and Computing (Semester 3-4)**
Students explore the theories and design practice in terms of computer graphic, printing techniques, Digital Imaging, illustration, photography, videography, website, and motion image.
- Ideation, Art Direction & Design Integrated (Semester 4-5)**
In this term, student's ability in problem solving is required. To what extent students gather several data, bring them into the idea development methods, and finally, present the idea into several media

integrally. It will be supported by some courses, such as marketing and consumer behaviour, ideation and art direction, advertising media, and entrepreneurship.

4. Enrichment Program (Semester 6-7)

Enrichment program of Visual Communication Design aims to gain student's soft skills regarding teamwork, leadership, and professional attitudes, as well as their hard skills in implementing the knowledge they acquired from classroom. In the 6th semester, students will have a four-month internship experience in the advertising industry or other creative industries. Meanwhile, in the 7th semester, students will have more opportunities (five different tracks), including: internship for industry experience, community development in social issues, entrepreneurship to build start-up business, research, and study abroad to enrich cultural experience.

5. Final Project (Semester 8)

In the last semester, students are required to solve a problem through an integrated campaign. Both design concept and strategy will be put in the academic paper. In addition, students need to implement their ideas into a complete creative display. It aims to evaluate student's abilities in data analysis, idea development, problem solving, and design execution.
