

Business Creation

Introduction

Business Creation Program is designed in particular to shape future creative and innovative entrepreneurs. The curriculum is designed with a balance of theory and practice, so the graduates will be able to start a new business in the third year. Most of the courses are delivered by successful entrepreneurs and experienced venture capital expert. Students will meet and hear from entrepreneurs who have created successful ventures. Some of these entrepreneurs will be willing to offer ongoing support and advice. Students will also meet other potential entrepreneurs like themselves with whom they can share ideas.

Vision

A world-class business school, fostering and empowering the society in serving and building the nation.

Mission

Providing world class business education to build the nation and to contribute to community development by means of:

- **Educating BINUSIANs to develop exemplary characters through holistic approach.**

Educating BINUSIANs to be ethical & innovative graduates with multiple skills to deal with business challenges using holistic approach.

- **Resolving business and entrepreneurship issues with meaningful and relevant research.**

Encouraging BINUSIAN to advance knowledge and practices with high quality research for resolving business and entrepreneurship issues.

- **Fostering BINUSIANs through self-enrichment.**

Nourishing BINUSIANs' SPIRIT for improving personal and professional capabilities

- **Empowering BINUSIANs to continuously improve business community.**

Invigorating BINUSIANs to solve the business community challenges through academic and community service activities.

Program Objective

The objectives of the program are:

1. Provide students with business and managerial knowledge and skills for exploration and active participation in sustainable and digital business landscape.
2. Equip students with digital technology and analytical skills for entrepreneurial and ethical business and management practices finance and business organizations and provide tools used in business analysis.

Prospective Career of the Graduates

There are many fields of career for graduates, including but not limited to:

- | | | |
|--------------|-----------------|---------------|
| 1. Analyst | 3. Entrepreneur | 5. Consultant |
| 2. Developer | 4. Manager | 6. Lecturer |

Curriculum

The Curriculum of Business Creation Program has a unique point and was designed to prepare graduate students' readiness to apply their entrepreneurial knowledge and to start a new business. The curriculum is designed based on the Entrepreneurial Process consist of Idea Generation & Opportunity Discovery; Designing Business Model & Business Plan; New Venture Creation and Business Development. Using experiential, action-based and project-based learning, students will learn about identifying opportunities that offer the potential to grow a business; evaluating opportunities, analysing the competition and minimising risk; and starting a new business. Students will understand how to design a business model & write business plan that generates strong revenue streams; how to protect intellectual property; how to make the best potential investment deals including how investment deals including how investment deals work and how to think and act in an entrepreneurial manner.

The student will gain access to mentoring expertise from both investors and entrepreneurs; networks and people who can help students make the dream to a reality; the opportunity to pitch to the investment community and gain feedback and the chance to submit your business plan to be considered for initial investment. In supporting the entrepreneurial learning, students are provided with a wide range of the entrepreneurial competition, which consists of Business Idea Competition, Creative Selling Competition, Business Model Competition, Business Plan Competition and Business Pitch Competition. In addition to the competition and mentoring, the students will also be facilitated by entrepreneurial activities such as speaking opportunities; sharing session; workshop & seminar; entrepreneur club; industrial visit; boot camp and exhibition. At the end of the study period, students are required to compile a thesis on the analysis of a business performance that has been run in the sixth and seventh semesters and design a business plan for the next five years.

1. Minor Program: Blockchain Technology and Business

Introduction

Blockchain is currently one of the fastest-growing industries in the technology sector. Also, based on Gemini's 2022 outlook, Indonesia is the most crypto-adopting country in Asia. The blockchain minor program initiative at BINUS could facilitate the students to learn and explore the technology. The Blockchain minor program explores the concept and development of blockchain from the technology and business perspectives. Beyond the blockchain concept, students will learn how to develop smart contracts and understand the architectural needs of a blockchain-based application. Finally, students will apply their knowledge in a project-oriented capstone course, during which they will design and develop a practical application of blockchain technology.

Career Options

Blockchain Consultant, Blockchain Architect, Blockchain Security Auditor, Token Economy Consultant, Smart Contract Developer, Web3 Entrepreneur.
